INTERNATIONAL LAW

Eighth Edition

International Law is the definitive and authoritative text on the subject, offering Shaw's unbeatable combination of clarity of expression and academic rigour and ensuring both understanding and critical analysis in an engaging and authoritative style. Encompassing the leading principles, practice and cases, and retaining and developing the detailed references which encourage and assist the reader in further study, this new edition motivates and challenges students and professionals while remaining accessible and engaging.

Fully updated to reflect recent case law and treaty developments, this edition contains an expanded treatment of the relationship between international and domestic law, the principles of international humanitarian law, and international criminal law alongside additional material on international economic law.

Malcolm N. Shaw, QC, is a practising barrister at Essex Court Chambers and Senior Fellow at the Lauterpacht Centre for International Law at the University of Cambridge. One of the world's leading international lawyers, he is an Associé of the Institut de Droit International, Trustee of the British Institute of International and Comparative Law and a founding member of Curatorium, Xiamen Academy of International Law, China. He has been awarded the decoration of 'Officier de l'Ordre de la Valeur' by the Republic of Cameroon.

From the 6th edition

“When I was teaching, *Shaw’s International Law* was my textbook of choice for the students. I continue today to find this book very useful and well organized. It is good news that a sixth edition guarantees that it remains thoroughly contemporary, with new chapters added and everything updated.”

Dame Rosalyn Higgins, *President of the International Court of Justice*

“Malcolm Shaw’s *International Law* has been an indispensable resource for students of international law since its first publication in 1977. It gives an accurate and well-balanced account of the development and current state of the law. In light of recent developments, the new chapters on international criminal law and the International Court of Justice are welcome. I warmly recommend Shaw to anyone studying international law at undergraduate level.”

James Crawford, *The Lauterpacht Centre for International Law, University of Cambridge*

“An outstanding treatise which I use regularly in the course of my work at the Court. It excels in precision, comprehensiveness and topicality. On many issues, like questions of territory, it has no equal in any language.”

Bruno Simma, *Judge, International Court of Justice.*

From the 7th edition

“With its well organized structure and clarity of exposition, Shaw’s *International Law* has long been established as the pre-eminent textbook on international law for students. It is, however, much more than that; researchers and practitioners will find this comprehensive and up-to-date survey of the whole field of international law invaluable.”

Sir Christopher Greenwood, *Judge of the International Court of Justice*

“By now, generations of international lawyers have learnt their international law from the present textbook. Over the years, *Shaw* has become the new *Oppenheim*. Today, *Shaw* is probably the best textbook on international law. It is, without doubt, the most comprehensive and most up-to-date exposition of the subject. The author displays a masterful treatment of the material. There is no incident of State practice, treaty, Security Council resolution, or court decision of note that is not dealt with in *Shaw*. If for no other reason than that, this book is an indispensable companion for any student, academic or practitioner of international law.”

Stefan Talmon, *University of Bonn*

“Malcolm Shaw’s *International Law* is the established teaching tool for students in the field. It is of no less use to practitioners, judges and arbitrators. It is lucid, balanced and comprehensive. Professor Shaw’s seventh edition maintains the currency of this important treatise.”

Stephen M. Schwebel, *former President of the International Court of Justice*

“This latest edition of Professor Shaw’s now classic textbook continues to strike that difficult balance between detail and accessibility. Comprehensive in its coverage, broad in its scope and situating the development of the law in its political and historic context, it is an essential textbook for all students of international law.”

Urfan Khaliq, *Cardiff University*

“The seventh edition of Malcolm Shaw’s *International Law* has firmly confirmed its place among the leading textbooks of international law in the world. It is an indispensable source of knowledge for anyone studying international law.”

Malgosia Fitzmaurice, *Queen Mary University of London*

“Shaw’s *International Law* has been my companion in teaching undergraduate and graduate courses in international law since the early 1990s. The book

provides a rich source that allows them not only insights into the details of the many areas of international law, but also to engage in current debates on how international law from a practical and academic point of view is challenged by the many developments in international society. I have not yet come across a textbook that combines these qualities in such a superb manner.”

Preface to the Eighth Edition

The chapters in this book have been re-examined, updated and, where necessary, rewritten in order to try and cope with the ever-increasing volume of new materials on international law. It was, in addition, decided to merge the two chapters on human rights in order to produce a better balance to the work and in the light of pressing space constraints. It has also, therefore, been possible to expand the treatment of some other chapters.

I would especially like to thank Marta Walkowiak, Caitlin Lisle, Caroline Mowatt and Rosemary Crawley of Cambridge University Press for their help and encouragement in the production of this edition. I am also grateful to Heather Palomino for her careful copy-editing and to Michael Heary for so carefully preparing the index and tables. Particular appreciation is owed to Rowan Nicholson for his meticulous research assistance. A lasting debt remains, however, to Sir Elihu Lauterpacht QC, a towering figure in international law, who sadly passed away as this edition was being prepared. His encouragement and assistance in the initial development of this book were indispensable. His continuing interest and friendship were deeply appreciated. I also remain grateful to my many colleagues from around the world for their advice and support, while reassuring them that all responsibility for the end product rests squarely with me.

As ever, the deepest thanks are due to my wife Judith and my children, Talia, Ilan and Daniella and now my grandchildren, Mika, Eden

and Zevi. I am particularly grateful to Ilan for once again producing an imaginative and quite remarkable cover painting.

The date of this work is January 2017, but I have been able to insert some additional material during the production process.
