ORGANISATIONAL BEHAVIOUR IN THE WORKPLACE

WITH JACQUELINE McLEAN

ORGANISATIONAL BEHAVIOUR IN THE WORKPLACE

Pearson

At Pearson, we have a simple mission: to help people make more of their lives through learning.

We combine innovative learning technology with trusted content and educational expertise to provide engaging and effective learning experiences that serve people wherever and whenever they are learning.

From classroom to boardroom, our curriculum materials, digital learning tools and testing programmes help to educate millions of people worldwide – more than any other private enterprise.

Every day our work helps learning flourish, and wherever learning flourishes, so do people.

0 Your study of organisational behaviour 1

Overview topic map: Chapter 0 – Your study of organisational behaviour 2

About this book: organisational behaviour in the workplace 3

What is organisational behaviour (OB)? 4

Underlying features of your study 5

Topics in OB are not entirely free-standing 6

What is the relevance of theory? 7

Organisational metaphors 8

The importance of organisational behaviour 10

OB, personal skills and employability 10

The 'SCARF' model 12

People management and social skills 13

Making yourself more employable 15

Personal skills and employability exercise 15

Structure of the book 17

Critical Thinking Zone 18

Notes and references 20

Part 1

Organisational behaviour and work 21

1 The people–organisation relationship 22

Overview topic map: Chapter 1 – The people–organisation relationship 23

Integrating the individual and the organisation 24

Organisational analysis 26

A multidisciplinary perspective 28

Positive organisational behaviour (POB) 29

Interrelated influences on behaviour 30

A framework of study 31

Social exchange theory 32

Organisational theory 33

The organisation as an open system 35

Organisation and management systems 37

Contribution of Human Resource Management (HRM) 39

The psychological contract 41

Nature and extent of expectations 41

Globalisation and the international context 43

The cultural environment 44

Is organisational behaviour culture-bound? 47

Critical Thinking Zone 50

Summary – Chapter 1 'The people–organisation relationship' 52

Group discussion activities 52

Organisational behaviour in action case study 53

Chapter 1 – Personal skills and employability exercise 55

Notes and references 56

2 The work environment 58

Overview topic map: Chapter 2 – The work environment 59

Work as a central life issue 60

Orientations to work and work ethic 63

Emotional labour 64

Work and the organisational setting 66

Private and public sector organisations 68

Social enterprise organisations 70

Common features of organisations 71

Formal and informal organisations 73
Friendships and relationships at work 75
Work/life balance 76
Changing nature of work organisations 79
Different generations and age groups 81
The future of the workplace 83
Critical Thinking Zone 86
Summary – Chapter 2 ‘The work environment’ 88
Group discussion activities 88
Organisational behaviour in action case study 90
Chapter 2 – Personal skills and employability exercise 91
Notes and references 92

3 Organisational conflict and stress 95

Overview topic map: Chapter 3 – Organisational conflict and stress 96
Work, health and well-being 97
What is organisational conflict? 98
Potential sources of conflict 100
Broader interpretations of conflict 103
The management of conflict 105
Conflict resolution in the workplace 106
What is organisational stress? 108
Potential causes of work stress 110
Is stress necessarily to be avoided? 111
Coping with stress 113
HSE management standards 116
Bullying and harassment 117
Frustration-induced behaviour 119
Critical Thinking Zone 120
Summary – Chapter 3 ‘Organisational conflict and stress’ 121
Group discussion activities 122
Organisational behaviour in action case study – based on real events 123
Chapter 3 – Personal skills and employability exercise 124
Notes and references 125

Part 2 Focus on the individual 127

4 Personality and diversity 128

Overview topic map: Chapter 4 – Personality and diversity 129
Recognition of individuality 130
Understanding personality 131
Personality traits and types 133
Uniqueness and similarities 135
Sigmund Freud – a psychodynamic perspective 136
Nomothetic approaches 138
Idiographic approaches 141
Personality and stress at work 144
The big five personality factors 145
Personality ‘tests’ and assessments 147
Applications in the workplace 147
Emotional intelligence (EI) 149
Recognition of diversity 151
Diversity in the workplace 152
Diversity and stereotyping 156
Criticisms and limitations 157
Critical Thinking Zone 158
Summary – Chapter 4 ‘Personality and diversity’ 160
Group discussion activities 161
Organisational behaviour in action case study 162
Chapter 4 – Personal skills and employability exercise 164
Notes and references 165

5 Learning and development 167

Overview topic map: Chapter 5 – Learning and development 168
The nature and importance of learning 169

A declaration on learning	172
Behaviourist and cognitive views of learning	174
Behaviourist theorists of learning	174
Cognitive perspective of learning	178
Socialisation	178
How do we learn?	179
Action learning	182
Learning preferences	184
E-learning	185
Knowledge management	186
Creativity	189
Mentoring and coaching	191
Applications of learning theory	195
Critical Thinking Zone	197
Summary – Chapter 5 ‘Learning and development’	199
Group discussion activities	199
Organisational behaviour in action case study	201
Chapter 5 – Personal skills and employability exercise	202
Notes and references	203

6 Perception and communication 206

Overview topic map: Chapter 6 – Perception and communication	207
The importance of the study of perception	208
The perceptual process	209
Internal characteristics	213
External influences	214
Perceptual illusions	219
Making judgements about other people	220
Difficulties in perceiving other people	222
Perceptual distortions and errors	225
Attribution theory	228
The importance of language and communication	230
Non-verbal communication and body language	231
Impression management	235
Perception and interpersonal communications	236
Understanding the organisational process	238
Critical Thinking Zone	239

Summary – Chapter 6 ‘Perception and communication’	241
Group discussion activities	241
Organisational behaviour in action case study	242
Chapter 6 – Personal skills and employability exercise	243
Notes and references	244

7 Work motivation and satisfaction 247

Overview topic map: Chapter 7 – Work motivation and satisfaction	248
The significance of motivation	249
Needs and expectations at work	250
Money as a motivator	251
Extrinsic and intrinsic motivation	252
Three-fold classification for review of motivation	254
Competing theories of motivation	256
Content theories of motivation	257
Maslow’s hierarchy of needs theory	257
Alderfer’s modified need hierarchy model	261
Nohria’s four drives model of motivation	262
Herzberg’s two-factor theory	262
McClelland’s achievement motivation theory	264
Process theories of motivation	265
Vroom’s expectancy theory	267
Implications of expectancy theory	268
Equity theory of motivation	269
Goal theory	271
Relevance today of motivation theories	274
Organisational behaviour modification	275
Motivation of knowledge workers	276
Job satisfaction	278
Comprehensive model of job enrichment	280
Critical Thinking Zone	282
Summary – Chapter 7 ‘Work motivation and satisfaction’	284
Group discussion activities	284
Organisational behaviour in action case study	285
Chapter 7 – Personal skills and employability exercise	286
Notes and references	287

Part 3 Focus on groups and leadership 291

8 Working in groups and teams 292

- Overview topic map: Chapter 8 – Working in groups and teams 293
- Importance and significance of groups 294
- Formal and informal groups 296
- Group values and norms 298
- Expectations and benefits of group membership 300
- Group cohesiveness and performance 301
- Membership 302
- Work environment 302
 - Organisational 303
- Group development and maturity 303
- Social identity theory 305
- Characteristics of effective work groups 307
- Virtual teams 309
- Analysis of individual behaviour 313
- Individual and group performance 316
- Building successful teams 320
- Autonomous working groups 322
- Critical Thinking Zone 325
- Summary – Chapter 8 ‘Working in groups and teams’ 326
- Group discussion activities 327
- Organisational behaviour in action case study 328
- Chapter 8 – Personal skills and employability exercise 329
- Notes and references 330

9 Leadership in work organisations 332

- Overview topic map: Chapter 9 – Leadership in work organisations 333
- The significance of leadership 334
- Approaches to the study of leadership 336
 - Qualities or traits approach 336
 - Functional (or group) approach 339
- Styles of leadership 340
- Continuum of leadership behaviour 341
- Contingency theories of leadership 343
 - Fiedler’s contingency model 343
 - Vroom and Yetton contingency model 345
 - Path–goal theory 346
- Readiness of the followers or group 348
- Transformational leadership 349
- Inspirational or visionary leadership 351
- Servant leadership 353
- Alternative views of leadership 354
- The leadership relationship 356
- Culture: A contingent factor? 357
- Leadership effectiveness 358
- Leadership development 361
- Critical Thinking Zone 363
- Summary – Chapter 9 ‘Leadership in work organisations’ 365
- Group discussion activities 366
- Organisational behaviour in action case study 367
- Chapter 9 – Personal skills and employability exercise 368
- Notes and references 370

10 Managing people at work 372

- Overview topic map: Chapter 10 – Managing people at work 373
- The management of people 374
- What *is* management? 376
- Management in public sector organisations 379
- Responsibility for the work of other people 380
- Managing with and through people 382
- A looser approach to managing 384
- Importance of managerial style 385

Theory X and Theory Y management	386
The Managerial/Leadership Grid®	388
Human resource management	390
Partnership with line managers	392
Investors in People	395
Performance management (PM)	397
Managerial effectiveness	399
Measures of effectiveness	400
Critical Thinking Zone	404
Summary – Chapter 10 ‘Managing people at work’	405
Group discussion activities	406
Organisational behaviour in action case study	407
Chapter 10 – Personal skills and employability exercise	407
Notes and references	409

Part 4

Focus on the workplace 411

11 Organisational theory and structure 412

Overview topic map: Chapter 11 – Organisation theory and structure	413
Developments in organisational behaviour	414
The classical approach	416
Administrative theory	417
Scientific management	418
Bureaucracy	421
Evaluation of bureaucracy	423
Human relations approach	425
Evaluation	427
Socio-technical approach	429
Contingency approach	430
Other approaches to the study of organisations	432
Decision theory	432
Social action	433
Action theory	434
Postmodernism (Post bureaucratic)	435
Relevance to study of organisational behaviour	436
Critical Thinking Zone	439
Summary – Chapter 11 ‘Organisational theory and structure’	441
Group discussion activities	442
Organisational behaviour in action case study	443
Chapter 11 – Personal skills and employability exercise	445
Notes and references	446

12 Patterns of structure and workplace design 449

- Overview topic map: Chapter 12 – Patterns of structure and workplace design 450
- Purpose and importance of structure 451
- Levels of organisation 452
- Underlying dimensions of structure 454
- Task and element functions 455
- Division of work and grouping of people 455
- Centralisation and decentralisation 458
- Design principles of organisation 460
- Formal organisational relationships 463
- Project teams and matrix organisation 464
- Role structure of the organisation 467
- Role conflict 469
- Boundaryless organisation 471
- Organisation charts 472
- Contingency approach 472
- Technology and structure 474
- Woodward – structure and production technology 475
- Perrow – major dimensions of technology 476
- Uncertain external environment 477
- Burns and Stalker – mechanistic and organic structures 478
- Lawrence and Lorsch – differentiation and integration 478
- Organisation structure and culture 480

Glossary 680

Index 691

In acknowledgement and appreciation

A special tribute to my wife Pamela and families for their constant warmth, support and encouragement with this latest edition.

Special thanks and gratitude also to — including:

Colleagues Jacqueline McLean and Peter Scott for their valued contribution to this twelfth edition.

Gill and Richard Christy

Mike Crabbe and Mike Timmins

Hugo Misselhorn

Anne Riches

Jane Southall

And the fond memory of Karen Meudell

Francesca Mullins, Rebekah Darvill, Abigail Voller

Di and Mike Blyth, Jenny and Tony Hart, Lynn and Wayne Miller, Christine Paterson

Those managers who kindly gave permission to reproduce material from their own organisations and work environments.

The team at Pearson Education including: Victoria Tubb, Andrew Müller, Kelly Miller and Rachel Gear. Also to Simon Lake (hoping you are enjoying your retirement: happy memories).

From Jacqueline: Heartfelt gratitude for your invaluable support, advice and encouragement: Dr Kevin Gallimore, Dr Jie Liu, Prof Gary Akehurst, Alison Rowlands, Paul Walsh; my Mother, Isolyn McLean, Janet Foster, Minerva Streete-Boafoo, Eseata Steele, Elizabeth McLean and family.

From Peter: Thanks to Debbie and also the various students over the years who have had ideas about technology and organisations bounced off them.

External reviewers

The following reviewers approached by the publishers for their constructive comments that have helped shape this revised new edition.

Dr Sophie Bennett-Gillison, University of Aberystwyth

Dr Pattanee Susomrith, Senior Lecturer, School of Business and Law, Edith Cowan University, Australia

John Bateman, The University of Sussex Business School

Dr Sarah Warnes, UCL School of Management

Hugh M. Davenport, Senior Lecturer in Organisational Behaviour, University of Northampton

Dr Dieu Hack-Polay, University of Lincoln

Dr Emmanuelle Rey-Marmonier, Aberdeen Business School, Robert Gordon University

About the author

Laurie Mullins has experience of business, local government, university administration and human resource management; an instructor in the Territorial Army; worked with the United Nations Association International Service, Voluntary Service Overseas; and professional and educational bodies including UNISON. Formerly a principal lecturer at Portsmouth Business School Laurie led the behavioural and human resource management group and was senior examiner for a range of university courses and professional organisations. Laurie has undertaken a visiting professorship at University of Wisconsin, USA; visiting fellowship at Royal Melbourne Institute of Technology University, Australia; guest speaker in South Africa; and frequent visiting lecturer in the Netherlands. Laurie is also author of *Essentials of Organisational Behaviour* and *Hospitality Management and Organisational Behaviour* both published by Pearson Education. His books have been translated into Russian, Chinese, Portuguese, Dutch and Greek with a Macedonian edition in progress. There has also been an edition in Braille. Laurie has the rare distinction for an academic author with an edition of *Management and Organisational Behaviour* featuring in both *The Guardian* and *The Times* bestseller lists of all paperbacks, both fiction and non-fiction.

About the contributors

Dr Jacqueline McLean is a Senior Lecturer in HRM and Organisational Behaviour in the Department of Business and Management at Manchester Metropolitan University. She is also Research Lead, Ethics and Governance Lead and Research Degrees Coordinator. Jacqueline is an experienced Educational Author, Consultant and Company Director and has been a Member of the Chartered Institute of Personnel and Development for over thirty-five years. Before joining academia, she held a number of personnel/HRM/training roles in the commercial sector. Jacqueline's PhD research focused on knowledge management and new product development and explored how organisations, through their infrastructure, can utilise specialist knowledge to enhance innovation propensity.

Peter Scott is a Senior Lecturer at the University of Portsmouth Business School, specialising in organisational behaviour and employee relations. He has previously taught at the University of Bath and Manchester Metropolitan University. Peter's doctoral research was on craft skills and advanced manufacturing technology.

Chapter 0

Your study of organisational behaviour

If you do not know where you are going how will you know if you have arrived?

Learning outcomes

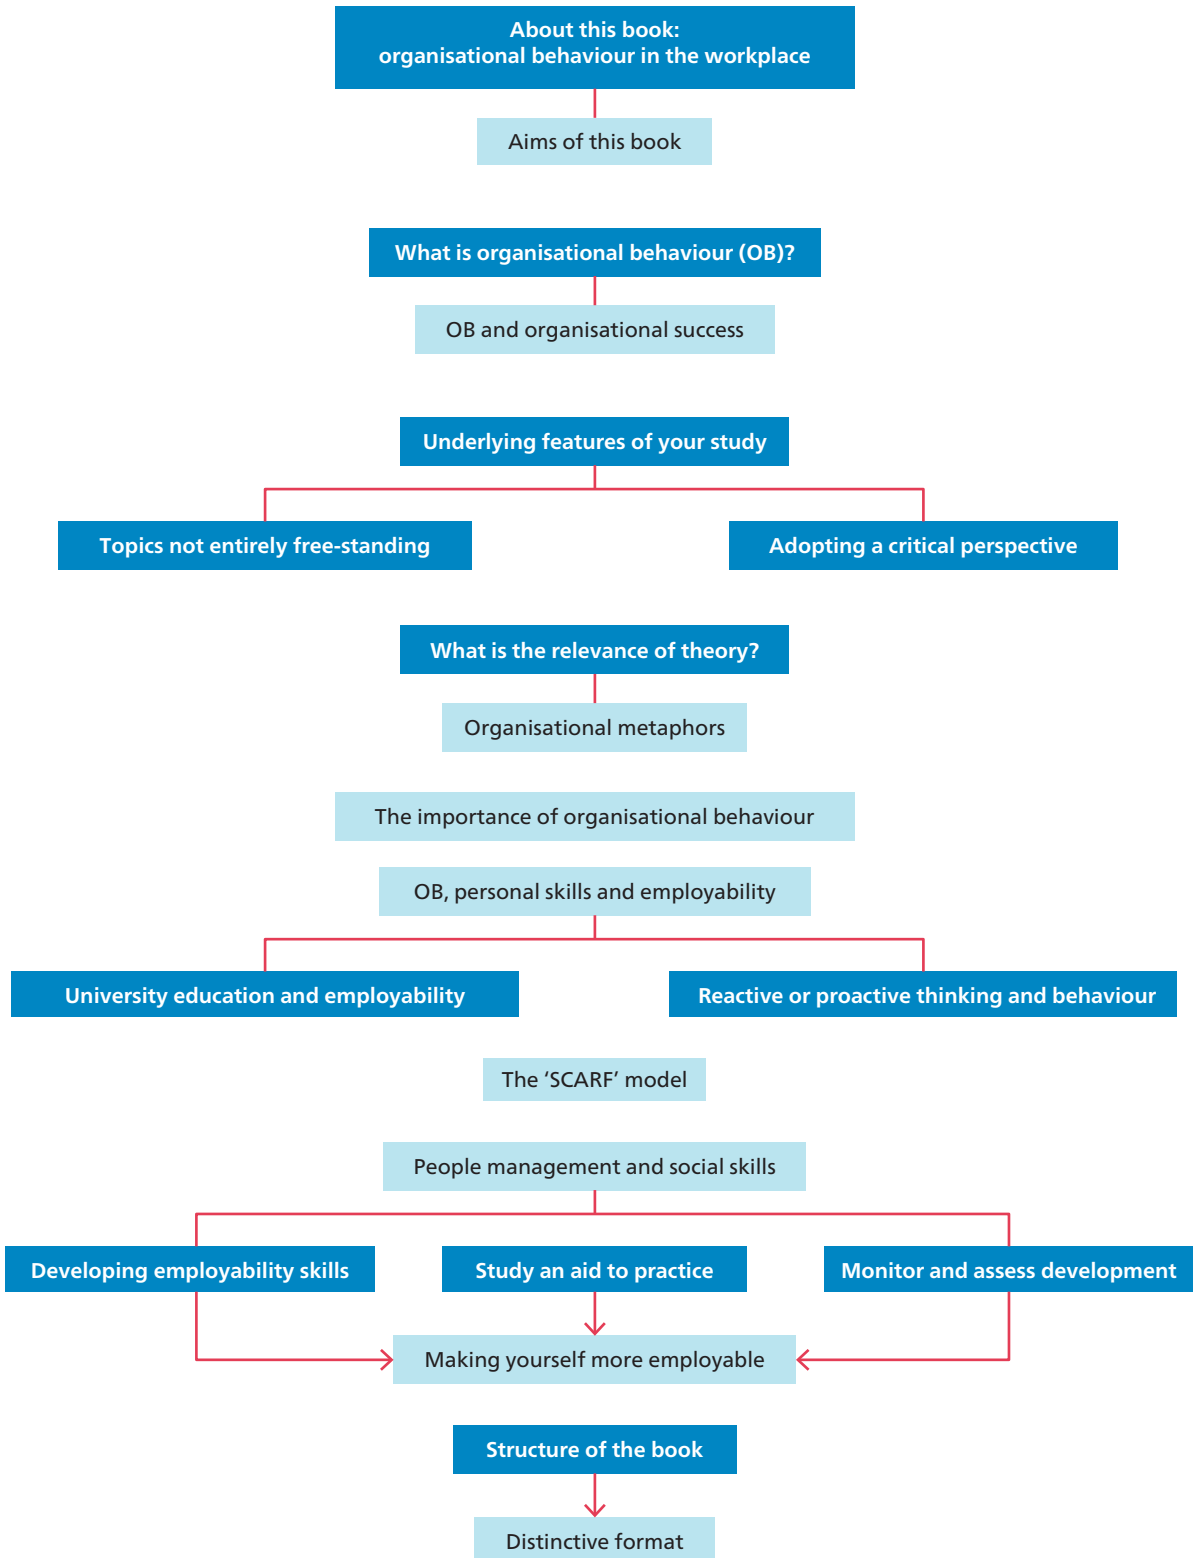

After reading this chapter you should be more aware of:

- the meaning, nature and scope of organisational behaviour;
- the importance of social skills and employability;
- the structure, main features and contents of the book.

Outline chapter contents

- * About this book: organisational behaviour in the workplace **3**
- * What is organisational behaviour (OB)? **4**
- * Underlying features of your study **5**
- * Topics in OB are not entirely free-standing **6**
- * What is the relevance of theory? **7**
- * Organisational metaphors **8**
- * The importance of organisational behaviour **10**
- * OB personal skills and employability **10**
- * The 'SCARF' model **12**
- * People management and social skills **13**
- * Making yourself more employable **15**
- * Personal skills and employability exercise **15**
- * Structure of the book **17**

Overview topic map: Chapter 0 – Your study of organisational behaviour

The hidden depth of an iceberg with up to 90 per cent of total mass below the surface

About this book: organisational behaviour in the workplace

This is an introductory text for those readers of organisational behaviour or related subjects interested in improving organisational performance through the behaviour and actions of people at work.

The activities of an organisation are directed towards the attainment of certain goals and also have social implications. Organisational behaviour is a wide and essentially multidisciplinary field of inquiry and should not be considered in a vacuum but related to the broader organisational context and external environment.

The concepts and ideas presented in this book provide a basis for contrasting perspectives on the structure, operation and management of organisations, and interactions among people who work in them. A central theme of the book is the nature of the people–organisation relationship.

Aims of this book

The aims of this book are to:

- indicate ways in which organisational performance may be improved through better understanding of the behaviour and actions of people at work;
- increase awareness of, and sensitivity to, personal skills and employability.

What is organisational behaviour (OB)?

At its basic, **organisational behaviour (OB)** is concerned with the study of human behaviour. It involves the understanding, prediction and control of behaviour of people within an organisational setting. The meaning of the term is not always clear and there are a number of closely related study areas with often similar descriptions such as organisational analysis, work psychology or organisation development but common definitions of organisational behaviour are generally along the lines of:

the study and understanding of individual and group behaviour and patterns of structure and management in order to help improve organisational performance and effectiveness.

Study of organisational behaviour is usually interpreted more about the people within the work situation but it is difficult to divorce completely from broader social situations.

Clearly there is a multiplicity of interrelated factors that influence the decisions and actions of people as members of a work organisation. The scope for the examination of organisational behaviour is therefore very wide. There is also debate over the relationship between organisational behaviour, the human resource function, and management theory and practice.

Organisational Behaviour is one of the most complex and perhaps least understood academic elements of modern general management, but since it concerns the behaviour of people within organisations it is also one of the most central . . . its concern with individual and group patterns of behaviour makes it an essential element in dealing with the complex behavioural issues thrown up in the modern business world.

Source: Introduction to Module 6, Organisational Behaviour, Financial Times Mastering Management, FT Pitman Publishing (1997), p. 216.

However much of a cliché, it is still an inescapable fact that people are the main resource of any organisation. Without its members, an organisation is nothing; an organisation is only as good as the people who work within it. In today's increasingly dynamic, global and competitive environment understanding human behaviour at work and effective management of the people resource is even more important for organisational survival and success.

Vecchio suggests three reasons for studying organisational behaviour.

- **Important practical applications** that follow from an understanding and knowledge of OB and the ability to deal effectively with others in an organisational setting.
- **Personal growth** and the fulfilment gained from understanding our fellow humans. Understanding others may also lead to greater self-knowledge and self-insight.
- **Increased knowledge** about people in work settings, for example identification of major dimensions of leadership leading to the design leadership training programmes in organisations.¹

Watson reminds us that the biggest challenge and most fascinating aspect that we face when trying to analyse organisations is its essential ambiguity. Organisations do not actually exist. The organisation in which you work or study is not something you can see, hear, touch, smell, kick, kiss or throw up in the air.²

OB and organisational success

Sooner or later every organisation has to perform successfully if it is to survive. An understanding of organisational behaviour is essential for organisational performance and effectiveness. In order to study the behaviour of people at work it is necessary to understand interrelationships with other variables that together comprise the total organisation.

The study of organisational behaviour embraces therefore an understanding of the interactions among:

- the nature and purpose of the organisation;
- formal structure and role relationships;
- the tasks to be undertaken and technology employed;
- organisational processes and the execution of work;
- the human element, informal organisation and behaviour of people;
- the process of management as an integrating and co-ordinating activity;
- social responsibilities and business ethics;
- the external environment of which the organisation is part; and
- the need for organisation success and survival.

How would YOU attempt to explain the meaning, significance and scope of organisational behaviour to a fellow student studying engineering?

Underlying features of your study

It is important always to remember that it is people who are being managed and people should be considered in human terms. Unlike physical resources, the people resource is not owned by the organisation. People bring their own perceptions, feelings and attitudes towards the organisation, systems and styles of management, their duties and responsibilities, and the conditions under which they are working. Human behaviour is capricious and scientific methods or principles of behaviour cannot be applied with reliability. It is also widely observed that you cannot study the behaviour of people without changing it.

A noticeable feature of organisational behaviour is the invariable difficulty in identifying a definitive solution to a particular situation. The absence of one single, 'right' answer can make study of the subject complex and frustrating and even may bring into question the value in studying the subject at all. Consider however the attraction of study for your personal development and confidence; the opportunity to test your thoughts and ideas with fellow students in a non-threatening environment; and to help prepare yourself for the realities of the work situation and progression in your future career.

Topics in OB are not entirely free-standing

The use of separate topic areas is a recognised academic means of aiding study and explanation of the subject. In practice, however, the activities of an organisation cannot be isolated neatly into discrete areas of study. Topics studied in OB should not be regarded, therefore, as entirely free-standing. Any study inevitably covers several aspects and used to a greater or lesser extent to confirm generalisations made about particular topic areas. Reference to the same studies to illustrate different aspects of management and organisational behaviour serves as useful revision and reinforcement and provides a more integrated approach to your study.

The majority of actions are likely to involve a number of simultaneous functions that relate to the total processes within an organisation. In order to study the behaviour of people at work it is necessary to understand interrelationships with other variables that together comprise the total organisation.

Consider, for example

A manager briefing departmental staff on a major unexpected, important and urgent task. Such a briefing is likely to include consideration of organisational culture, organisation and role structures, management of change, levels of hierarchy and authority, forms of communications, previous experience, delegation and empowerment, teamwork, leadership style, motivation and control systems. The behaviour of the staff will be influenced by a combination of individual, group, organisational and environmental factors.

Explain fully what other possible considerations YOU see as important? What do you see as the priorities for decision or action?

Adopting a critical perspective

You are encouraged to adopt a critical perspective towards your studies. Be prepared to analyse, question and challenge what you read in the text. What do YOU think and believe? Be prepared to change any preconceived beliefs. Consider also whose interests are best served by the preferred 'best' answer: for example senior managers, the general workforce, shareholders, trade unions, community.

At the end of each chapter you will find group discussion activities to help provoke personal responses to what you have just read. You are of course entitled to your own views but be conscious of your own bias or prejudices. The extent to which your point of view persuades other people will be influenced by clear, logical reasoning and supported by academic evidence.

Draw upon the views of your colleagues to share experiences and test not only your assumptions and ideas but also your skills of group interaction and influencing

other people. References to the importance of skills throughout the text, together with the exhibits, case studies and assignments should serve to stimulate your awareness of the importance of underlying personal and employability skills necessary for effective performance.

You are encouraged to complement your reading by drawing upon your own observations and practical experiences. This can, of course, be from your university. You may also have work experience, even part-time or casual employment, in other organisations to draw upon. In addition, you will have contact with a range of other organisations such as supermarkets, local pubs and shops, bank or building society, fast-food restaurants, service station, doctor or dentist surgery. An analytical approach to contemporary examples from your own observations should help further both a critical perspective and your interest in the subject area.

Bear in mind that opportunities to develop personal skills are not always immediately apparent but embedded into your course of study. Adopt an inquisitive and enquiring mind. Search for both good and bad examples of organisational behaviour and people management, and the **manner** in which concepts and ideas presented in this book are applied in practice. Make a point of continually observing and thinking about the interpersonal and work-based skills exhibited. Use this awareness and knowledge to enhance development of your own employability skills and aid career progression.

W1A – A British comedy television series aired on BBC 2 in September 2017

This entertaining programme follows the life of Ian Fletcher, who works at the BBC as the ‘head of values’ – a role that requires him to redefine the entire BBC brand and tasked with clarifying and defining the core purpose of the BBC across all its activities. The series of half-hour programmes makes fun of ludicrous jargon and political correctness; and is a spoof about such subjects as structure, open-plan, hot-desking, communications, meetings, social interactions, stereotypical behaviour, inclusivity and other aspects of organisational behaviour.

The programme provides an amusing and stimulating way of thinking about the subject area. Despite the implausibility of the programme, it is easy to relate to what can actually happen in work organisations.

There are a number of references to the programme on the internet and it is available to buy on DVD.

What is the relevance of theory?

You should not be put off by the use of the word ‘theory’ in your studies. Most rational decisions are based on some form of theory. Theory provides a sound basis for action and contains a message on how people might behave. This may influence attitudes towards actual practice and lead to changes in patterns of behaviour. Theory further provides a conceptual framework and gives a perspective for the practical study of the subject. Together they lead to a better understanding of

factors influencing patterns of behaviour in work organisations and applications of the process of management.³ *McGregor* maintains that theory and practice are inseparable. Every managerial act rests on assumptions, generalizations, and hypotheses – that is to say, on theory. Although our assumptions are frequently implicit, sometimes quite unconscious, often conflicting; nevertheless, they determine our predictions that if we do a, b will occur.⁴

Patching suggests that all managers who think about what they do are practical students of organisational theory.

Theory is not something unique to academics, but something we all work with in arriving at our attitudes, beliefs and decisions as managers. It seems obvious to most of us that some theories are better than others. Many managerial discussions which we undertake in meetings focus upon trying to agree upon which theory will be best for a particular decision.⁵

Organisational metaphors

Organisations are complex social systems that can be defined and studied in a number of ways. However one looks at the nature or disciplines of OB it is important to remember as *Morgan* points out:

the reality of organisational life usually comprises numerous different realities.

Through the use of metaphors, *Morgan* provides a broad perspective on the nature of organisations and organisational behaviour and identifies eight different ways of viewing organisations – as machines, organisms, brains, cultures, political systems, psychic prisons, flux and transformation, and instruments of domination. These contrasting metaphors aid the understanding of the complex nature of organisational life and the critical evaluation of organisational phenomena.⁶

Metaphors offer an interesting perspective on how to view organisations. They provide a broader view of the dynamics of organisational behaviour and how to manage and design organisations. However, *Morgan* points out that these metaphors are not fixed categories and are not mutually exclusive. An organisation can be a mix of each and predominantly a combination of two or three metaphors. Furthermore, these combinations may change over a period of time.

A number of writers use metaphors to help describe organisations. For example, in discussing the role and logic of viewing the organisation in terms of metaphors, *Drummond* raises questions such as what an organisation is like and the power of metaphors in shaping our thinking, but also points out that all metaphors are partial and no metaphor can explain fully a particular phenomenon.⁷

The metaphor of an iceberg

A convenient way to perceive the organisation is an iceberg. For example, *Hellriegel, Slocum and Woodman* suggest: 'One way to recognise why people behave as they do at work is to view an organisation as an iceberg. What sinks ships isn't always what sailors can see, but what they can't see'.⁸

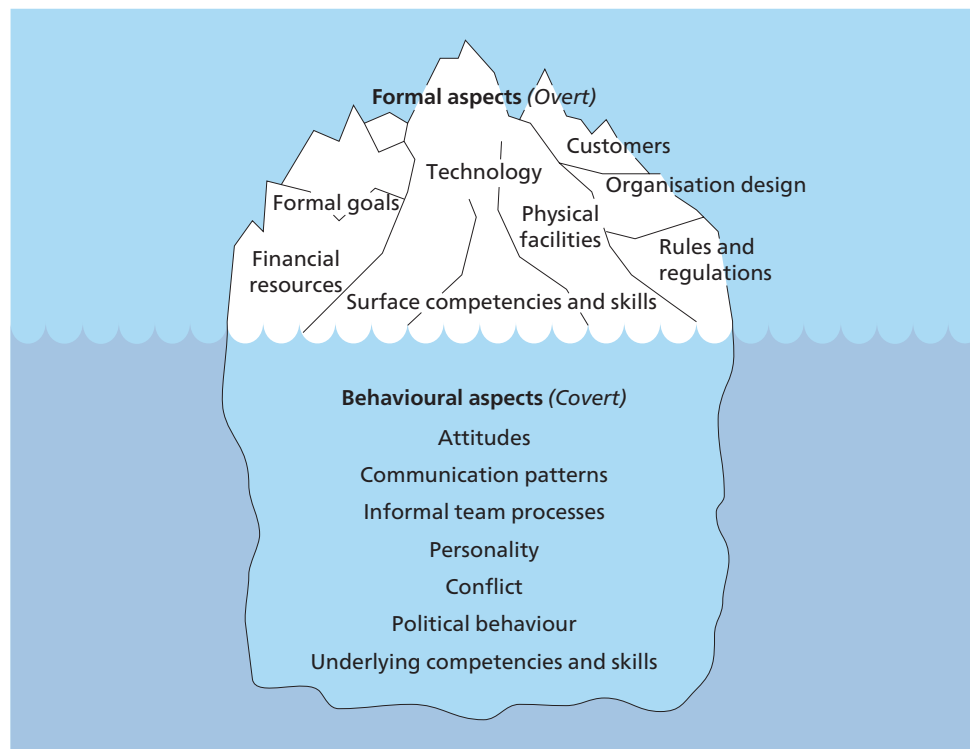

Figure 1 The organisational iceberg

Source: From Hellriegel, D., Slocum, J. W., Jr. and Woodman, R. W. *Management*, eighth edition, South-Western Publishing (1998), p. 6. Reproduced by permission.

The overt, formal aspects focus only on the tip of the iceberg (organisation). It is just as important to focus on what you can't see – the covert, behavioural aspects (see Figure 1).

The shadow side of organisations

Egan refers to the importance of the shadow side of the organisation: that is, those things not found on organisation charts or in company manuals – the covert, and often undiscussed, activities of people which affect both the productivity and quality of the working life of an organisation.⁹ As *Howes* points out, the fiercest battles of the workplace may seem trivial yet they are nothing of the sort. 'Forget disagreements over strategies or policy – many of the bitterest workplace battles are fought over the prosaic matters of air conditioning and in-office music.' Underlying and unresolved disputes can brew animosity and resentment, and halt production.¹⁰

What metaphor would YOU use to help describe your university and/or any other organisation with which you are familiar?
