About the Authors

Stephen P. Robbins

Ph.D. University of Arizona

Stephen P. Robbins is Professor Emeritus of Management at San Diego State University and the world's best-selling textbook author in the areas of both management and organizational behavior. His books are used at more than a thousand U.S. colleges and universities; have been translated into 19 languages; and have adapted editions for Canada, Australia, South Africa, and India. Dr. Robbins is also the author of the best-selling books *The Truth about Managing People*, 2nd ed. (Financial Times/Prentice Hall, 2008) and *Decide & Conquer* (Financial Times/Prentice Hall, 2004).

In his “other life,” Dr. Robbins actively participates in masters’ track competitions. Since turning 50 in 1993, he’s won 18 national championships and 12 world titles, and set numerous U.S. and world age-group records at 60, 100, 200, and 400 meters. In 2005, Dr. Robbins was elected into the USA Masters’ Track & Field Hall of Fame.

Timothy A. Judge

Ph.D. University of Illinois at Urbana-Champaign

Timothy A. Judge is currently the Joseph A. Alutto Chair in Leadership Effectiveness at the Department of Management and Human Resources, Fisher College of Business, The Ohio State University. He has held academic positions at the University of Notre Dame, University of Florida, University of Iowa, Cornell University, Charles University in the Czech Republic, Comenius University in Slovakia, and University of Illinois at Urbana-Champaign. Dr. Judge’s primary research interests are in (1) personality, moods, and emotions; (2) job attitudes; (3) leadership and influence behaviors; and (4) careers (person–organization fit, career success). Dr. Judge has published more than 154 articles in these and other major topics in journals such as the *Academy of Management Journal* and the *Journal of Applied Psychology*. He is a fellow of several organizations, including the American Psychological Association and the Academy of Management. Among the many professional acknowledgments of his work, most recently Dr. Judge was awarded the Academy of Management Human Resources Division’s Scholarly Achievement Award for 2014. Dr. Judge is a co-author of *Essentials of Organizational Behavior*, 14th ed., with Stephen P. Robbins, and *Staffing Organizations*, 8th ed., with Herbert G. Heneman III. He is married and has three children—a daughter who is a health care social worker, a daughter who is studying for a master’s degree, and a son in middle school.

Employability

A new **Employability Skills Matrix** at the beginning of each chapter provides students with a visual guide to features that support the development of skills employers are looking for in today's business graduates, helping students to see from the start of class the relevance of the course to their career goals.

Develop Self-Awareness and an Awareness of Others

The authors have recommended a **Personal Inventory Assessment** for each chapter, which is assignable in MyLab Management. These assessments help develop professionalism and awareness of oneself and others, skills necessary for future career success.

(Personal Inventory Assessment in MyLab Management for Chapter 6)

Applied Learning Opportunities Throughout

Multiple opportunities to apply course concepts are found throughout the text and in MyLab Management. Each chapter references MyLab Management exercises such as branching, scenario-based **Try It Mini Sims**, and **Watch It Videos** about real companies. Global examples embedded throughout show how culture and diversity have an impact on the application of OB concepts.

(Try It Mini Sim in MyLab Management for Chapter 7)

(Watch It Video in MyLab Management for Chapter 2)

Additional Application Practice in End-of-Chapter

Experiential Activities, **Ethical Dilemmas**, and **two Cases** are included at the end of each chapter. Also, **five Comprehensive Cases** at the end of the textbook provide more practice than any other text available.

ETHICAL DILEMMA BYOD

“What’s your cell phone number? Good, I’ll call you about the meeting.” If you’re like many people in the world who have used a smartphone for years, or one of the 1.3 billion people who bought one recently, chances are you’ve used it for work. In fact, your employer may have even invited—or asked—you to use your smartphone, tablet, or laptop in your job. Such is the bring-your-own-device (BYOD) trend, which started out of friendly convenience but now carries major ethical issues. For instance:

EXPERIENTIAL EXERCISE Choosing the Right Modes of Communication

Pair up with someone you never worked with before. In this exercise, you will pretend to be Gerard, the head of the accounting department in the company. During an intense week, you receive the following email from the human resources director.

(Page 453)

We believe that your department would environment for this employee to feel more on the job. Two colleagues from HR will assist the employee in the transition process, which to begin next month. All the people involved demonstrated great collaboration with us.

CASE INCIDENT 1 Warning: Collaboration Overload

“Regardless of what you’re giving us, we’re dying by e-mail,” an executive told Jamie McLellan, a CTO at an advertising agency. McLellan invested in many different collaboration tools with the goal of helping the employees work more efficiently. Many organizations have taken this same approach through open-plan offices, such as those in many knowledge-intensive companies like Facebook, which has a notorious 430,000-square-foot open office space. Among these tools, employees can use them to create internal team websites, chat, and share documents. However, almost

(Page 202)

spent collaborating with one’s work) translates to collaboration overload. Collaboration overload is decision making within a number of collaborating communication components involved in decision making requiring more meetings. Although there is much need to tone down the

Real and Relevant Examples

Every chapter is filled with examples to make OB more meaningful and help students recognize course concepts in action. **Profiles of real company leaders** throughout illustrate how course concepts have helped their success.

The transformational leadership of Netflix CEO Reed Hastings has helped the company grow from a small DVD rental service to an Internet streaming service with 93 million customers in more than 190 countries. Hastings encourages employees to take risks, empowers them to make decisions, and gives them the freedom and responsibility to create innovative ideas and products.

Nonunion Positions and the Gig Economy Are Bad for Workers

POINT

What do Uber, Etsy, and Amazon Turk all have in common? All of these platforms are fuel for short-term freelance work, and a reflection of what economists have dubbed the gig economy. Fifty years ago, employers expected workers to stay with a company for 30 years. In exchange for their loyalty, employees were given more opportunities and a pension. Unlike the labor market of today, companies promoted from within. As this practice fell by the wayside, employers hired employees for shorter and shorter periods. Now, many new jobs are not long-term or even short-term positions: They're gigs. Employees work as independent contractors, using third-party platforms to connect to clients. Because these employees do not have a traditional employment contract, they have complete flexibility: They can work as much or

COUNTERPOINT

While the gig economy has its drawbacks, these platforms exist for a reason. Employers and employees alike are fed up with traditional employment. Yes, some people who work through freelance apps use it as a primary source of income. But there are just as many, if not more, who just want a flexible second job to get a little extra cash. If these positions were like the services they are replacing (e.g., cab companies), then gig employees would have to agree to specific policies regarding sick days and work a set schedule. I'm also skeptical of this idea that freelancers are replacing traditional employment. Yes, some city-level data shows that gig-based jobs increased while payroll jobs decreased. But there are also more data from 2010 to 2014 that suggest that contractor and payroll jobs have increased in most sectors that support freelance platforms. For

Is it wrong that I'd rather have guys on my team?

Career Objectives

Please don't call me sexist; women are great colleagues and equally effective managers, but I'd rather have men on my team. It's more relaxing for me, and for the other guys I think, because we naturally understand each other and can talk freely. The teams with all men that I've been in have all been very productive.

—Jorge

Dear Jorge, With all the talk currently focused on gender diversity in organizations, your

of team diversity's potential for higher morale, trust, and satisfaction. Notice that these are values as opposed to the reported reality from the paragraph above. Ellison concluded that there is a "mismatch between the kind of workplace people think they would like and the actual workplace that would make them happier."

Don't think this is your ticket to male-only teams, though. Happiness aside, this study found that diverse teams realized significantly greater rev-

The recently added **Career Objectives** provide advice, in question-and-answer format, to help students think through how OB concepts can help them address issues they may face in today's workforce.
