Index of Applications	7
Preface	13

1

Whole Numbers 23

1.1	Standard Notation	24
1.2	Addition	31
1.3	Subtraction	36
1.4	Multiplication	41
1.5	Division	48

Mid-Chapter Review 57

1.6	Rounding and Estimating; Order	59
1.7	Solving Equations	70
1.8	Applications and Problem Solving	76

Translating for Success 84

1.9	Exponential Notation and Order of Operations	92
-----	---	----

Summary and Review 100

Test 105

2

Integers 107

2.1	The Integers	108
2.2	Addition of Integers	114
2.3	Subtraction of Integers	120

Mid-Chapter Review 126

2.4	Multiplication of Integers	128
2.5	Division of Integers and Order of Operations	132

Translating for Success 136

Summary and Review 140

Test 145

3

Fraction Notation: Multiplication and Division 147

3.1	Factorizations	148
3.2	Divisibility	155
3.3	Fractions and Fraction Notation	161
3.4	Multiplication and Applications	171
3.5	Simplifying	177

Mid-Chapter Review 184

3.6	Multiplying, Simplifying, and Applications	186
3.7	Division and Applications	192

Translating for Success 196

Summary and Review 200

Test 205

Cumulative Review 207

4 Fraction Notation and Mixed Numerals 209

- 4.1 Least Common Multiples 210
- 4.2 Addition and Applications 217
- 4.3 Subtraction, Order, and Applications 224

Translating for Success 228

- 4.4 Mixed Numerals 232

Mid-Chapter Review 238

- 4.5 Addition and Subtraction Using Mixed Numerals; Applications 240
- 4.6 Multiplication and Division Using Mixed Numerals; Applications 250

Translating for Success 254

- 4.7 Order of Operations, Complex Fractions, and Estimation 260

Summary and Review 267

Test 273

Cumulative Review 275

5 Decimal Notation 277

- 5.1 Decimal Notation, Order, and Rounding 278
 - 5.2 Addition and Subtraction 288
 - 5.3 Multiplication 296
 - 5.4 Division 304
- ### **Mid-Chapter Review 315**
- 5.5 Converting from Fraction Notation to Decimal Notation 317
 - 5.6 Estimating 326
 - 5.7 Applications and Problem Solving 331

Translating for Success 336

Summary and Review 342

Test 347

Cumulative Review 349

6 Ratio and Proportion 351

- 6.1 Introduction to Ratios 352
- 6.2 Rates and Unit Prices 359
- 6.3 Proportions 366

Mid-Chapter Review 373

- 6.4 Applications of Proportions 375

Translating for Success 380

- 6.5 Geometric Applications 386

Summary and Review 394

Test 399

Cumulative Review 401

7 Percent Notation 403

- 7.1 Percent Notation 404
- 7.2 Percent Notation and Fraction Notation 411
- 7.3 Solving Percent Problems Using Percent Equations 419
- 7.4 Solving Percent Problems Using Proportions 425

Mid-Chapter Review 431

- 7.5 Applications of Percent 433

Translating for Success 440

- 7.6 Sales Tax, Commission, and Discount 447

- 7.7 Simple Interest and Compound Interest; Credit Cards 456

Summary and Review 465

Test 471

Cumulative Review 473

8

Data, Graphs, and Statistics 475

- 8.1 Averages, Medians, and Modes 476
 8.2 Interpreting Data from
 Tables and Graphs 484

Mid-Chapter Review 494

- 8.3 Interpreting and Drawing
 Bar Graphs and Line Graphs 496
 8.4 Interpreting and Drawing
 Circle Graphs 505

Translating for Success 507**Summary and Review 510****Test 516****Cumulative Review 519**

9

Measurement 521

- 9.1 Linear Measures: American Units 522
 9.2 Linear Measures: The Metric System 528
 9.3 Converting Between American Units
 and Metric Units 535

Mid-Chapter Review 539

- 9.4 Weight and Mass;
 Medical Applications 541
 9.5 Capacity; Medical Applications 549
 9.6 Time and Temperature 555
 9.7 Converting Units of Area 561

Translating for Success 563**Summary and Review 566****Test 571****Cumulative Review 573**

10

Geometry 575

- 10.1 Perimeter 576
 10.2 Area 581
 10.3 Circles 592

Mid-Chapter Review 601

- 10.4 Volume 603
 10.5 Angles and Triangles 613
 10.6 Square Roots and the
 Pythagorean Theorem 622

Translating for Success 626**Summary and Review 630****Test 638****Cumulative Review 641**

11

Algebra: Solving Equations
 and Problems 643

- 11.1 Introduction to Algebra 644
 11.2 Solving Equations:
 The Addition Principle 653
 11.3 Solving Equations:
 The Multiplication Principle 657

Mid-Chapter Review 662

- 11.4 Using the Principles Together 664
 11.5 Applications and Problem Solving 675

Translating for Success 684**Summary and Review 690****Test 695****Cumulative Review 697**

Index of Applications

Agriculture

Acres planted, 336
Apple farm, 104, 206
Community garden, 231
Corn production, 340, 573
Cranberry bog, 174
Earth-moving equipment sales, 449–450
Farming area, 303
Farmland, 441
Fertilizer, 244, 358
Garden plots, 223
Grain storage tank, 626
Grass seed, 256, 359, 384
Harvesting walnut trees, 262–263
Honey production, 223
Irrigation pipe, 254
Milk production, 223, 574
Morel mushrooms, 176
Planting corn, 228
Seed production, 574
Seeded area, 635
U.S. farmers producing peaches, 545
U.S. farmers producing pecans, 545

Astronomy

Circumference of Earth, 598
Diameter of Pluto, 698
Distance from the sun to Neptune, 30
Farthest distance of Mars from the sun, 537
Gravity of Mars, 471
Phases of the moon, 227
Planet orbits, 216
Planetary moons, 497
Planets, 491
Space shuttle orbits, 256, 402
Space travel, 320
Surface temperature on a planet, 122
Volume of a satellite, 611
Volume of Earth, 611

Automotive

Acceleration, 265
Auto repair technicians, 474
Car colors, 415
Car depreciation, 436, 442
Car value, 436
Driving costs, 314

Fuel economy, 409, 489
Gallons of gasoline, 196, 380
Gas mileage, 136, 160, 168, 199, 252, 257, 319, 320, 324, 335, 336, 339, 345, 348, 359, 372, 381, 383, 396, 399, 402, 476, 482, 512, 519, 573, 574, 600
Interstate speed limits, 87
Odometer reading, 338
Parts on a Toyota Camry, 161
Purchasing a new car, 63
Speed limits, 537
Speeding ticket, 142
Students owning a car, 519
Time a mechanic spends on a car, 574
Tire tread, 230

Biology

Bear population, 379
Beehives needed to pollinate apple trees, 104
Bees and honey, 554
Birds killed, 444
Black bear cubs, 265
Bones in the hands and feet, 91
Deer population, 379
Elephant heart rate, 364
Endangered species, 505
Extinction of mammals, 434–435
Heart rates of mammals, 484–485
Height of a tree, 390
Heights of bearded irises, 500
Kangaroos, 538
Rhino population, 492
Silicon in the Earth's crust, 357
Speed of a black racer snake, 363
Trout population, 384
Water in the human body, 412
Whale population, 384

Business

Apple net income, 257
Book order, 273
Business days in a year, 205
Business trip expenses, 440
Candy company producing packages of gum, 80–81
Catering, 220
Change for a yard sale, 689
Cigarette exports, 554
Coffee production, 383

Conference expenses, 68
Copy-center account, 125
Defective valves, 520
Deli order, 254
Delivering car parts, 168
Downsizing, 495
Fitness club membership sales, 449
Land sale, 440
Machine wrapping candy bars, 700
Mailing-list changes, 190
Mining company, 104
Office supplies, 106
Online ad spending, 339
Owning a business, 520
Packaging, 103, 196, 228, 612
Pencil company, 216
Price negotiations, 483
Producing tuxedos, 507
Publishing, 382
Quality control, 382, 397
Real estate developer, 173
Sales trip, 155, 199
Sales, 77, 303, 350, 357, 396, 509
Selling a home without a realtor, 472
Shipping, 89
Sundae's Homemade Ice Cream & Coffee Co., 574
Yard-sale profit, 88

Chemistry

Acid solution, 443
Alcohol solution, 443
Beakers of alcohol, 104
Boiling point and altitude, 560
Chemical reaction, 133, 146, 208
Copper and nickel in coins, 404
Gold, 600
Metallurgy, 382
Precious metals, 611
Tanzanite, 548
Temperature change in an experiment, 127
Weight of water, 256, 258, 285, 338, 570

Construction

Addition to a medical clinic, 392
Addition to an athletic facility, 389
Apartment builder, 104
Board cutting, 696

Brick-mason expense, 84
Building a ziggurat, 258
Carpenter drilling holes, 86
Carpentry, 222, 249, 271, 274
Carpeting, 276, 589
Ceramic tile, 174
Concrete mix, 223
Construction plans, 378
Cost of sports stadiums, 511
Crown molding, 578
Cutting rope, 228, 687
Determining paint needs, 376, 398, 700
Drain pipe, 136
Fencing, 330, 578, 580, 600
“Flipping” houses, 124
Floor tiling, 176
Flooring, 252–253
Glaziers, 573
Greenhouse dimensions, 235
Hancock Building dimensions, 689
Hanging a door, 402
Height of a ladder, 625, 626
Height of a wall, 391
Height of buildings, 537, 572
Height of the Washington Monument, 537
Height of towers, 26, 85, 400, 536, 538, 563
Houses with porches, 421
Installing a rain gutter, 580
Installing a swimming-pool walk, 598
Insulation, 444
Interior design, 249
Kitchen remodeling, 698
Largest building in the world, 300
Leaning Tower of Pisa, 357
Length of a bolt, 249
Length of a wire, 637, 640
Length of braces, 629
Lucas Oil Stadium, 586
Millau viaduct, 536
Nail length, 243
Norman window, 636
Painting, 45, 228, 247, 249, 254, 382, 383, 589
Palazzo hotel, 565
Pipe cutting, 687
Pitch of a screw, 189, 199, 206
Plumber, 246
Pond edging, 597
Rafters of a house, 387–388, 637
Repaving a road, 204
Roof of a turret, 611
Scale-model air conditioning unit, 393
Skylight, 389
Stone bench, 248
Stone walkways, 235
Subflooring, 220
Thickness of a board and glue, 222, 325
Tiles used for a sidewalk, 256
Towers never built, 85
Two-by-four, 445, 687

Waterproofing a deck, 382
Widening a driveway, 242–243
Window code, 331
Window dimensions, 248, 392
Wire cutting, 275, 684, 702

Consumer

Amount spent on food, 696
Apartment rent, 136
Art prices, 256
Better buy, 602
Bottled water consumption, 338
Buying gasoline for a motorhome, 99
Buying gift cards, 259
Buying video games, 91
Car rental, 686
Cell phone bill, 136
Coffee and tea consumption, 285, 496–497
Cost, 329, 333, 334, 337, 338, 341, 348, 350, 385, 440, 474, 578, 580, 693, 700, 704
Cost of gasoline, 336, 337, 554, 642
Cost with a coupon, 350
Costs for moviegoers, 438–439
Cruise cost, 626
Delivery truck rental, 679–680
Discount, 450–451, 455, 469, 470, 471, 472
Eating out, 409
Electric bill, 380
Energy use, 406
Estimating cost, 326, 327, 329, 330
FedEx shipping costs, 520
First-class postage, 515
Gasoline consumption, 397
Gasoline usage, 563
Health club membership fee, 348
Hourly rate for repair charges, 84
How food dollars are spent, 416
Juice consumption, 137
Lumber consumption, 554
Online price, 380
Parking rates, 88
Personal consumption expenditures, 493
Planning a vacation, 67
Prices, 470, 548, 686, 688, 694
Purchase price, 136
Purchasing, 84, 88, 103, 196, 222, 327, 329, 332–333
Sale prices, 444, 469, 470, 471
Spending, 303, 442
Taxi fares, 688
Tipping, 442, 446, 689
Total cost, 79, 348
Transportation costs, 161
Travel expenses, 440
Unit price, 360, 361, 364, 365, 374, 396, 397, 398, 399, 402, 474, 519, 642, 698
Van rental, 686
Wasting water, 554

Domestic

Bake sale, 235
Baking, 222, 350
Bed sheets, 80
Bolt of fabric, 642
Cutco cutlery, 249
Cutting ribbon, 474
Fabric strips, 519
Flower vase, 202
Knitting a scarf, 196, 678–679
Mural, 256
Painting a decorative border, 271
Peat moss needed for rose bushes, 187
Planting flowers, 246
Quilt design, 235
Recipes, 174, 190, 204, 223, 257, 271, 275, 325, 402, 430, 519
Ribbon needed to make a bow, 175, 580
Sewing, 198, 204, 247, 271
Upholstery fabric, 247

Economics

Americans’ spending on health care, 420

Education

Art departments sharing clay, 430
Associate’s degrees, 199
Bachelor’s degrees, 199, 408, 499, 501
Books in libraries, 345
Class size, 383
College costs, 515
College enrollment, 84
College profile, 191
College students living in dorms, 206

College tuition, 63, 228, 336, 696
Course grade, 477, 478
Distance from college, 228
Education level completed, 410
English language learners, 29
Enrollment in Japanese classes, 254
Exam scores, 478, 507
Foreign students, 468, 507
Grade point average, 477–478, 482, 512, 516
Grading, 382, 478, 482
Graduation rates, 410
Instructors at a community college, 91
Level of education and median income, 204
Master’s degrees, 199
Public schools, 69
Reading assignment, 78, 228
Research paper, 230
SAT score, 440
School fundraiser, 68, 208
Senior students, 548
Student ages, 700
Student enrollment in different levels and types of schools, 506
Student-to-faculty ratio, 385
Study groups, 274
Study time and test grades, 381
Substitute teaching, 190
Test questions, 183, 563
Test scores, 98, 441, 442, 469, 489, 512, 516, 642, 683, 686, 689
Working students, 208

Engineering

Bicycle design, 389
Bridge length, 563
Channel Tunnel, 538
Coaxial cable, 199
Distance across a river, 391
Drilling activity, 86
Electrical wiring, 336
Electricity generation, 405, 488
Empire State Building, 112
Energy, 641
Energy consumption, 520
First stage detached from rocket, 109
Gas pipeline, 610
Guy wire, 625
Height of a pole, 628
Height of the Statue of Liberty, 687
Illuminated bridge, 525
Measuring the height of a hill, 391
Surveying, 629
Suspension bridge, 519

Environment

Deepest point in oceans, 146
Elevation, 124, 125, 136, 146
Extreme climate, 112
Great Lakes, 612
Heat index, 490

Height of a hill, 391
Hurricanes, 517
Length of a lake, 391
Length of canals, 332
Length of the Congo River, 26
Length of the Nile and Amazon Rivers, 694
Longest rivers, 86
Low points on continents, 125
Mississippi River, 109, 441
Mountain peaks in Colorado, 314
Rain, 223
Record rainfall, 353
Record snowfall, 353, 374
Recycling aluminum cans, 409
Snow to water, 383
Temperatures, 109, 112, 122, 125, 137, 257, 280, 559, 560
Tornadoes, 514
Trash production, 397
Waste generated, 517
Water level, 109, 507
Wildfires, 299
Wind speeds, 352
Windy cities, 324

Finance

Amount inherited, 336
Bank account balance, 91, 137, 144, 334–335, 336, 345, 350
Billionaires, 520
Borrowing money, 470

Total assets, 143
Travel funds, 336
Tuition loan, 190, 350

Food

Bagged salad greens, 399
Batch of fudge, 259
Berry salad, 220
Boxes of candy, 196
Brussels sprouts, 482
Candy bar, 161
Case of soda, 125
Cereal, 196, 198, 380, 383, 417, 491–492, 548
Cheese, 372
Chocolate bars, 254
Chocolate desserts, 501
Coffee, 404
Cookies, 689
Crème de Menthe Thins, 196
Egg costs, 398
Favorite ice cream, 421, 469
Flounder fillets, 295
Frozen fruit drinks, 353
Fudge, 372
Game snacks, 336
Gourmet sandwiches, 679
Grapes, 542
Ham servings, 399
Hamburgers, 363, 541
Hostess Ding Dongs®, 106
Ice-cream roll-up cake, 163
Iced brownies, 222
Iced tea, 206
Icing on cinnamon rolls, 230
Lean boneless ham, 333
Mangoes, 482
Maple syrup, 381
Margherita pizza, 230
Oatmeal comparisons, 511
Organic russet potatoes, 359
Peanut products, 520
Pears, 698
Pizza, 176, 259
Popcorn, 231
Pork servings, 626
Powdered milk, 642
Servings of cheesecake, 223
Servings of fish, 258, 295, 372
Soda cans, 125
Strip of taffy, 206
Sugar, 198
Swiss cheese, 259
Thanksgiving dinner, 400
Tossed salad, 176
Truffles, 187
Turkey servings, 271, 382, 398
Wasting food, 409, 443
Weight of cheese, 247

Weight of eggs, 480, 548
Weight of turkey, 247
Wheel of cheese, 230

Geometry

Angles of a triangle, 681–682, 684, 687, 694, 696
Area of a border, 589
Area of a circular region, 596, 597, 598
Area of a field, 589
Area of a kite, 586
Area of a lawn, 589
Area of a rectangular region, 45, 47, 79–80, 89, 104, 106, 134, 136, 147, 339, 350, 585, 586, 589, 634, 635, 645
Area of a sidewalk, 589, 598
Area of a square region, 47, 596
Area of lots, 338, 380
Building area, 591
Circumference of a circle, 593, 597, 598
Diameter of a circle, 597, 598
Dimensions of a rectangular region, 235, 248, 336, 357, 678–679, 680–681, 687, 694, 696
Lengths of a carpet runner, 693
Office space area, 47
Open cardboard container, 106
Perimeter of a rectangular region, 33, 35, 89, 104, 106, 247, 339, 380, 578, 580, 626, 634, 681, 684, 689
Perimeter of a square region, 35, 580
Radius of a circle, 598
Triangular sail, 591
Volume of a capsule, 612
Volume of a circular cone, 611, 626
Volume of a cube, 611, 612
Volume of a cylinder, 610, 611, 626
Volume of a propane gas tank, 607
Volume of a rectangular solid, 604, 611, 638
Volume of a sphere, 606, 610, 611, 612, 626
Volume of a submarine, 611
Width of a rectangular region, 388, 391, 684

252, 399
Vacation miles, 507

Preface

The Bittinger Program

Math hasn't changed, but students—and the way they learn it—have.

Basic College Mathematics with Early Integers, 3rd Edition, continues the Bittinger tradition of objective-based, guided learning, while integrating timely updates to the proven pedagogy. In this edition, there is a greater emphasis on guided learning and helping students get the most out of all of the course resources available with the Bittinger program, including new opportunities for mobile learning.

The program has expanded to include these comprehensive new teaching and learning resources: **MyMathGuide workbook**, **To-the-Point Objective Videos**, and enhanced, media-rich **MyMathLab** courses. Feedback from instructors and students motivated these and several other significant improvements: a new design to support guided learning, new figures and photos to help students visualize both concepts and applications, and many new and updated real-data applications to bring the math to life.

With so many resources available in so many formats, the trusted guidance of the Bittinger team on *what to do* and *when* will help today's math students stay on task. Students are encouraged to use **Your Guide to Success in Math**, a four-step learning path and checklist. The guide will help students identify the resources in the textbook, supplements, and MyMathLab that support *their* learning style, as they develop and retain the skills and conceptual understanding they need to succeed in this and future courses.

In this preface, a look at the key new *and* hallmark resources and features of the *Basic College Mathematics with Early Integers* program—including the textbook/eText, video program, *MyMathGuide* workbook, and MyMathLab—is organized around **Your Guide to Success in Math**. This will help instructors direct students to the tools and resources that will help them most in a traditional lecture, hybrid, lab-based, or online environment.

NEW AND HALLMARK FEATURES IN RELATION TO Your Guide to Success in Math

STEP 1 Learn the Skills and Concepts

Students have several options for learning, reviewing, and practicing the math concepts and skills.

Textbook/eText

- Skill to Review.** At the beginning of nearly every text section, *Skill to Review* offers a just-in-time review of a previously presented skill that relates to the new material in the section. Section and objective references are included for the student's convenience, and two practice exercises are provided for review and reinforcement.
- Margin Exercises.** For each objective, problems labeled “Do Exercise . . .” give students frequent opportunities to solve exercises while they learn.

- New! Guided Solutions.** Nearly every section has *Guided Solution* margin exercises with fill-in blanks at key steps in the problem-solving process.
- Enhanced! MyMathLab.** MyMathLab now includes *Active Learning Figures* for directed exploration of concepts; more problem types, including *Reading Checks* and *Guided Solutions*; and new, objective-based videos. (See pp. 16–19 for a detailed description of the features of MyMathLab.)
- New! To-the-Point Objective Videos.** This is a comprehensive new program of objective-based, interactive videos that are incorporated into the Learning Path in MyMathLab and can be used hand-in-hand with the *MyMathGuide* workbook.
 - New! Interactive Your Turn Exercises.** For each objective in the videos, students solve exercises and receive instant feedback on their work.
- New! MyMathGuide: Notes, Practice, and Video Path.** This is an objective-based workbook (available printed and in MyMathLab) for guided, hands-on learning. It offers vocabulary, skill, and concept review—along with problem-solving practice—with space to show work and write notes. Incorporated in the Learning Path in MyMathLab, it can be used together with the To-the-Point Objective Video program, instructor lectures, and the textbook.

STEP 2 Check Your Understanding

Throughout the program, students have frequent opportunities to check their work and confirm that they understand each skill and concept before moving on to the next topic.

- New! Reading Checks.** At the beginning of each set of section exercises in the text, students demonstrate their grasp of the skills and concepts.
- New! Active Learning Figures.** In MyMathLab, Active Learning Figures guide students in exploring math concepts and reinforcing their understanding.
- Translating for Success.** In the text and in MyMathLab, these activities offer students extra practice with the important first step of the process for solving applied problems.

STEP 3 Do Your Homework

Basic College Mathematics with Early Integers, 3rd Edition, has a wealth of proven and updated exercises.

- Skill Maintenance.** In each section, these exercises offer a thorough review of the math in the preceding text.
- Synthesis Exercises.** To help build critical-thinking skills, these section exercises require students to use what they know and combine learning objectives from the current section with those from previous sections.

STEP 4 Review and Test Your Understanding

Students have a variety of resources to check their skills and understanding along the way and to help them prepare for tests.

- Mid-Chapter Review.** Mid-way through each chapter, students work a set of exercises (*Concept Reinforcement*, *Guided Solutions*, *Mixed Review*, and *Understanding Through Discussion and Writing*) to confirm that they have grasped the skills and concepts covered in the first half before moving on to new material.
- Summary and Review.** This resource provides an in-text opportunity for active learning and review for each chapter. *Vocabulary Reinforcement*, *Concept Reinforcement*, objective-based *Study Guide* (examples paired with similar exercises), *Review Exercises* (including *Synthesis* problems), and *Understanding Through Discussion and Writing* are included in these comprehensive chapter reviews.

- Chapter Test.** Chapter Tests offer students the opportunity for comprehensive review and reinforcement prior to taking their instructor’s exam. **Chapter Test-Prep Videos** (in MyMathLab and on YouTube) show step-by-step solutions to the Chapter Tests.
- Cumulative Review.** Following every chapter beginning with Chapter 3, a Cumulative Review revisits skills and concepts from all preceding chapters to help students retain previously learned material.

Study Skills

Developing solid time-management, note-taking, test-taking, and other study skills is key to student success in math courses (as well as professionally and personally). Instructors can direct students to related study skills resources as needed.

- New! Studying for Success.** Checklists of study skills—designed to ensure that students develop the skills they need to succeed in math, school, and life—are integrated throughout the text at the beginning of selected sections.
- New! Study Skills Modules.** In MyMathLab, interactive modules address common areas of weakness, including time-management, test-taking, and note-taking skills. Additional modules support career-readiness.
- New! Student Study Reference. At a Glance,** provided at the end of this book, lists the key information and expressions for quick reference as students work exercises and review for tests.

Learning Math in Context

- New! Applications.** Throughout the text in examples and exercises, real-data applications encourage students to see and interpret the mathematics that appears every day in the world around them. Applications that use real data are drawn from business and economics, life and physical sciences, medicine, technology, and areas of general interest such as sports and daily life. New applications include “Fastest-Growing Occupations” (p. 68), “Training Regimens” (p. 230), “Media Usage” (p. 331), and “*The Hobbit: An Unexpected Journey*” (p. 359). For a complete list of applications, please refer to the Index of Applications (p. vii).

BREAKTHROUGH

To improving results

MyMathLab

Ties the Complete Learning Program Together

MyMathLab® Online Course (access code required)

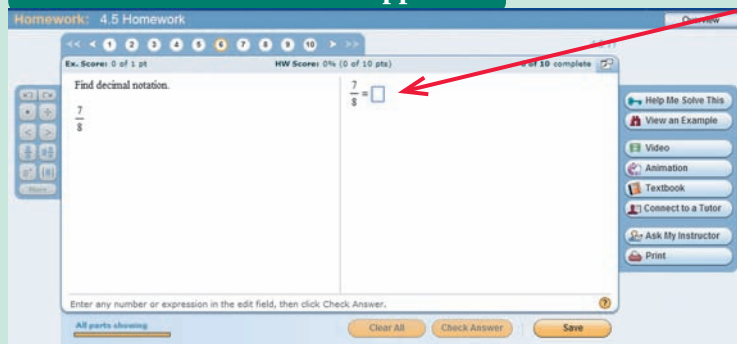

MyMathLab from Pearson is the world's leading online resource in mathematics, integrating interactive homework, assessment, and media in a flexible, easy to use format. MyMathLab delivers **proven results** in helping individual students succeed. It provides **engaging experiences** that personalize, stimulate, and measure learning for each student. And it comes from an **experienced partner** with educational expertise and an eye on the future.

MyMathLab for Developmental Mathematics

Prepared to go wherever you want to take your students.

Personalized Support for Students

Homework with Built-in Support

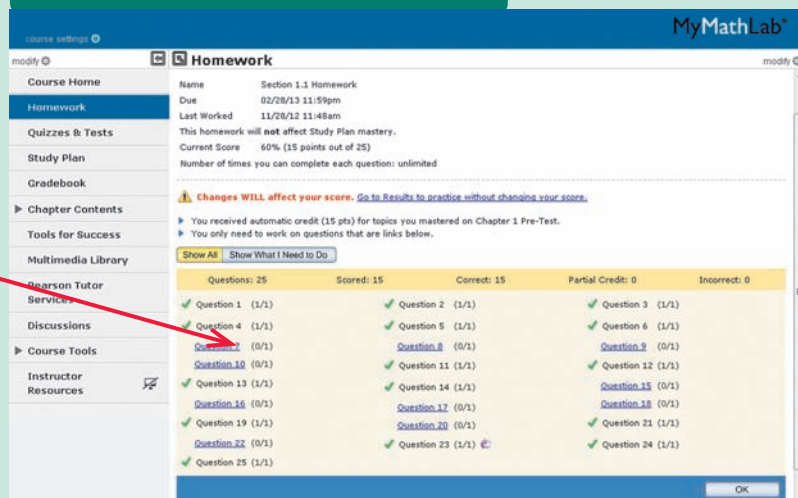

Exercises: The homework and practice exercises in MyMathLab are correlated to the exercises in the textbook, and they regenerate algorithmically to give students unlimited opportunities for practice and mastery. The software offers immediate, helpful feedback when students enter incorrect answers.

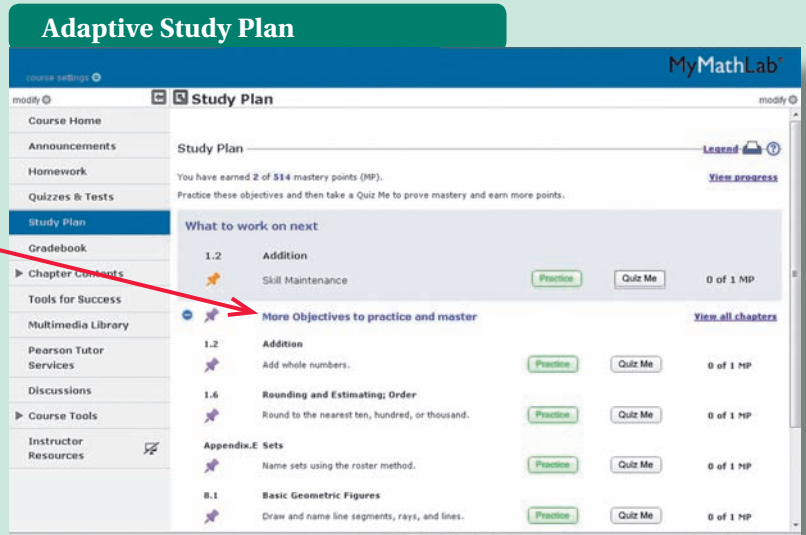

Multimedia Learning Aids: Exercises include guided solutions, sample problems, animations, videos, and eText access for extra help at point of use.

Personalized Homework

To help students achieve mastery, MyMathLab can generate **personalized homework** based on individual performance on tests or quizzes. Personalized homework allows students to focus on topics they have not yet mastered.

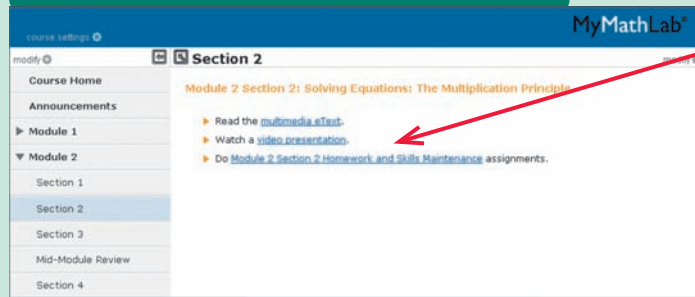

The **Adaptive Study Plan** makes studying more efficient and effective for every student. Performance and activity are assessed continually in real time. The data and analytics are used to provide personalized content—reinforcing concepts that target each student’s strengths and weaknesses.

Flexible Design, Easy Start-Up, and Results for Instructors

Customized Courses

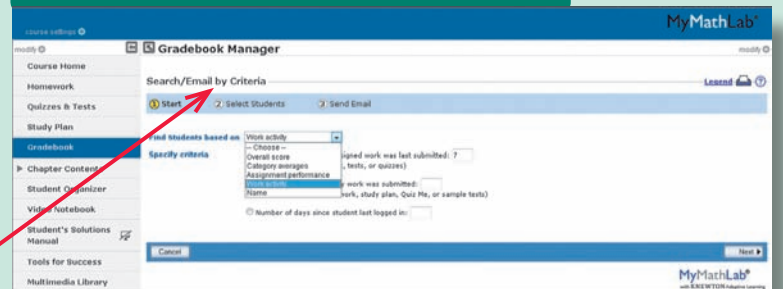

Instructors can modify the site navigation and insert their own directions on course-level landing pages; also, a custom MyMathLab course can be built that reorganizes and structures the course material by chapters, modules, units—whatever the need may be.

The **comprehensive online gradebook** automatically tracks students’ results on tests, quizzes, and homework and in the study plan. Instructors can use the gradebook to quickly intervene if students have trouble, or to provide positive feedback on a job well done. The data within MyMathLab is easily exported to a variety of spreadsheet programs, such as Microsoft Excel. Instructors can determine which points of data to export and then analyze the results to determine success.

New features, such as **Search/Email by criteria**, make the gradebook a powerful tool for instructors. With this feature, instructors can easily communicate with both at-risk and successful students. They can search by score on specific assignments, non-completion of assignments within a given time frame, last login date, or overall score.

Gradebook

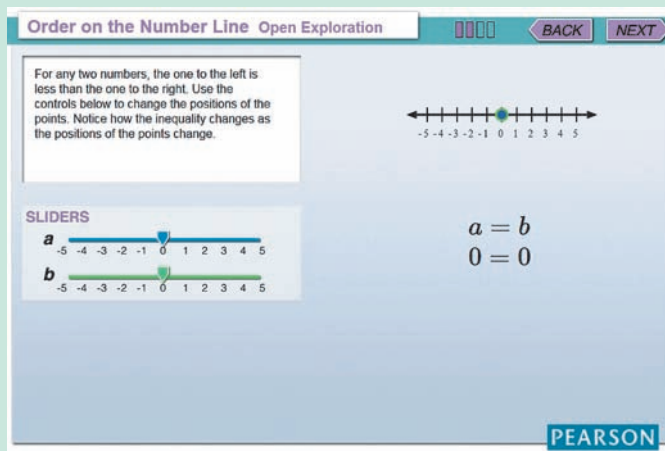

Special Bittinger Resources

in MyMathLab for Students and Instructors

In addition to robust course delivery, MyMathLab offers the full Bittinger eText, additional Bittinger Program features, and the entire set of instructor and student resources in one easy-to-access online location.

New! Active Learning Figures

In MyMathLab, Active Learning Figures guide students in exploring math concepts and reinforcing their understanding. Instructors can use Active Learning Figures in class or as media assignments in MyMathLab to guide students to explore math concepts and reinforce their understanding.

New! Integrated Bittinger Video Program and MyMathGuide workbook

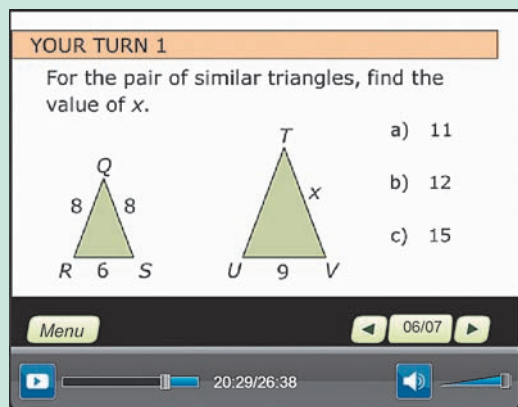

Bittinger Video Program

(DVD ISBN: 978-0-321-92280-9)

The Video Program is available in MyMathLab and on DVD and includes closed captioning and the following video types:

New! **To-the-Point Objective Videos.** These objective-based, interactive videos are incorporated into the Learning Path in MyMathLab and can be used along with the *MyMathGuide* workbook.

Chapter Test Prep Videos. The Chapter Test Prep Videos let students watch instructors work through step-by-step solutions to all the Chapter Test exercises from the textbook. Chapter Test Prep Videos are also available on YouTube™ (search using author name and book title).

New! *MyMathGuide: Notes, Practice, and Video Path* workbook
(Printed Workbook ISBN: 978-0-321-86863-3)

This objective-based workbook for guided, hands-on learning offers vocabulary, skill, and concept review—along with problem-solving practice—with space to show work and write notes. Incorporated in the Learning Path in MyMathLab, *MyMathGuide* can be used together with the To-the-Point Objective Video program, instructor lectures, and the textbook. Instructors can assign To-the-Point Objective Videos in MyMathLab in conjunction with the *MyMathGuide* workbook.

Section 1.6 | Rounding and Estimating; Order 1

Rounding

ESSENTIALS

Rounding can be done by looking at the number line or using the following rule.

To round to a certain place:

- Locate the digit in that place.
- Consider the next digit to the right.
- If the digit to the right is 5 or higher, round up. If the digit to the right is 4 or lower, round down.
- Change all digits to the right of the rounding location to zeros.

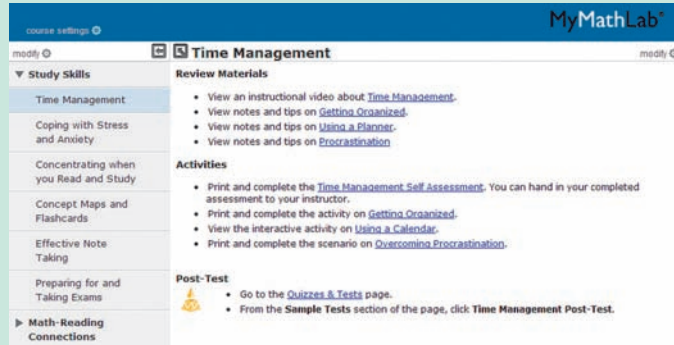

Examples

- 7132 rounded to the nearest ten is 7130.
- 5489 rounded to the nearest hundred is 5500.
- 69,523 rounded to the nearest thousand is 70,000.

T Textbook
 I Instructor
 V Video

GUIDED LEARNING	YOUR TURN
<p>EXAMPLE 1</p> <p>Round 32 to the nearest ten.</p>  <p>32 is between 30 and <input type="text"/>. Since 32 is closer to <input type="text"/>, we round <input type="text"/> <small>up/down</small> to 30.</p>	<p>YOUR TURN 1</p> <p>Round 83 to the nearest ten.</p> 
<p>EXAMPLE 2</p> <p>Round 55 to the nearest ten.</p>  <p>55 is halfway between <input type="text"/> and 60. We could round up to 60 or down to 50, so we agree to round <input type="text"/> <small>up/down</small> to 60.</p>	<p>YOUR TURN 2</p> <p>Round 75 to the nearest ten.</p>

Copyright © 2015 Pearson Education, Inc.

The screenshot shows the MyMathLab interface for the 'Time Management' module. The top navigation bar includes 'course settings', 'modify', and 'Time Management'. The left sidebar lists 'Study Skills' (Time Management, Coping with Stress and Anxiety, Concentrating when you Read and Study, Concept Maps and Flashcards, Effective Note Taking, Preparing for and Taking Exams) and 'Math-Reading Connections'. The main content area is divided into three sections: 'Review Materials' (with links to instructional videos and notes), 'Activities' (with links to self-assessments and interactive activities), and 'Post-Test' (with instructions to go to the Quizzes & Tests page).

Study Skills Modules

In MyMathLab, interactive modules address common areas of weakness, including time-management, test-taking, and note-taking skills. Additional modules support career readiness. Instructors can assign module material with a post-quiz.

Additional Resources in MyMathLab

For Students

Student's Solutions Manual

By Judith A. Penna

This manual contains completely worked-out annotated solutions for all the odd-numbered exercises in the section-level exercise sets in the text. It also includes fully worked-out annotated solutions for all the exercises (odd- and even-numbered) in the Mid-Chapter Reviews, the Summary and Reviews, the Chapter Tests, and the Cumulative Reviews.

For Instructors

Instructor's Resource Manual with Tests and Mini Lectures**

(download only)

By Laurie Hurley

This manual includes resources designed to help both new and experienced instructors with course preparation and classroom management. This includes chapter-by-chapter teaching tips and support for media supplements. It contains two multiple-choice tests per chapter, six free-response tests per chapter, and eight final exams.

Instructor's Solutions Manual**

(download only)

By Judith A. Penna

This manual contains brief solutions to the even-numbered exercises in the section-level exercise sets. It also includes fully worked-out annotated solutions for all the exercises (odd- and even-numbered) in the Mid-Chapter Reviews, the Chapter Tests, and the Cumulative Reviews.

PowerPoint® Lecture Slides**

(download only)

These slides present key concepts and definitions from the text.

To learn more about how MyMathLab combines proven learning applications with powerful assessment, visit www.mymathlab.com or contact your Pearson representative.

**Also available for download from the Instructor Resource Center (IRC) on www.pearsonglobaleditions.com.

Acknowledgments

Our deepest appreciation to all of you who helped to shape this edition by reviewing and spending time with us on your campuses. In particular, we would like to thank the following reviewers:

Simone Aeshliman, *St. Cloud Technical and Community College*
Afsheen Akbar, *Bergen Community College*
Kory Ambrosich, *Phoenix College*
Morgan Arnold, *Central Georgia Technical College*
Connie Buller, *Metropolitan Community College*
Erin Cooke, *Gwinnett Technical College*
Kay Davis, *Del Mar College*
Edward Dillon, *Century Community and Technical College*
Beverlee Drucker, *Northern Virginia Community College*
Sabine Eggleston, *Edison State College*
Dylan Faullin, *Dodge City Community College*
Anne Fischer, *Tulsa Community College, Metro Campus*
Rebecca Gubitti, *Edison State College*
Exie Hall, *Del Mar College*

Jane Serbousek, *Northern Virginia Community College*
Alexis Thurman, *County College of Morris*
Melanie Walker, *Bergen Community College*

Endless hours of hard work by Martha Morong, Jane Hoover, and Geri Davis have led to products of which we are immensely proud. Strong support has also come from Laurie Hurley for the *Instructor's Resource Manual* and for accuracy checking, along with checkers Holly Martinez, Joanne Koratich, and Patty LaGree, and from proof-reader Monroe Street. Michelle Lanosga assisted with applications research. We also wish to recognize Nelson Carter, who wrote video scripts.

In addition, a number of people at Pearson have contributed in special ways to the development and production of this textbook, including the Developmental Math team: Senior Production Supervisor Ron Hampton, Senior Designer Barbara Atkinson, and Associate Media Producer Jonathan Wooding. Executive Editor Cathy Cantin and Marketing Manager Rachel Ross encouraged our vision and provided marketing insight.

The publishers would like to thank the following for their contribution to the Global Edition:

Contributor

Moetaz Hammouda, The American University in Cairo

Reviewers

Summary and Review

Test

STUDYING FOR SUCCESS *Getting Off to a Good Start*

- Your syllabus for this course is extremely important. Read it carefully, noting required texts and materials.
- If there is an online component for your course, register for it as soon as possible.
- At the front of the text, you will find a Student Organizer card. This pullout card will help you keep track of important dates and useful contact information.

1.1

Standard Notation

OBJECTIVES

- a** Give the meaning of digits in standard notation.
- b** Convert from standard notation to expanded notation.
- c** Convert between standard notation and word names.

We study mathematics in order to be able to solve problems. In this section, we study how numbers are named. We begin with the concept of place value.

a PLACE VALUE

The numbers of jobs available in 2010 for several professions are shown in the following table.

PROFESSION	NUMBER OF JOBS, 2010
Registered nurses	2,737,400
Radiologic technologists	219,900
Radiation therapists	16,900

SOURCE: U.S. Department of Labor, Bureau of Labor Statistics

A **digit** is a number 0, 1, 2, 3, 4, 5, 6, 7, 8, or 9 that names a place-value location. For large numbers, digits are separated by commas into groups of three, called **periods**. Each period has a name: *ones*, *thousands*, *millions*, *billions*, *trillions*, and so on. To understand the number of jobs for registered nurses in the table above, we can use a **place-value chart**, as shown below.

PLACE-VALUE CHART														
Trillions			Billions			Millions			Thousands			Ones		
								2	7	3	7	4	0	0
Hundreds	Tens	Ones	Hundreds	Tens	Ones	Hundreds	Tens	Ones	Hundreds	Tens	Ones	Hundreds	Tens	Ones
						2 millions			737 thousands			400 ones		

EXAMPLES In each of the following numbers, what does the digit 8 mean?

1. 27**8**,342 8 thousands
2. **8**72,342 8 hundred thousands
3. **28**,343,399,223 8 billions
4. **98**,413,099 8 millions
5. 63**28** 8 ones

Do Margin Exercises 1–6 (in the margin at right). ►

What does the digit 2 mean in each number?

1. 526,555 2. 265,789
3. 42,789,654 4. 24,789,654
5. 8924 6. 5,643,201

EXAMPLE 6 Charitable Organizations. Since its founding in 1881 by Clara Barton, the American Red Cross has been the nation’s best-known emergency response organization. As part of a worldwide organization, the American Red Cross also aids victims of devastating natural disasters. For the fiscal year ending June 2011, the total revenue of the American Red Cross was \$3,452,960,387. What digit names the number of ten millions?

Source: charitynavigator.org

The digit 5 is in the ten millions place, so 5 names the number of ten millions.

Do Exercise 7. ►

7. Government Payroll. In March 2011, the total payroll for all state employees in the United States was \$19,971,861,990. What digit names the number of ten billions?

Source: 2011 Annual Survey of Public Employment and Payroll

b CONVERTING FROM STANDARD NOTATION TO EXPANDED NOTATION

Heifer International is a charitable organization whose mission is to work with communities to end hunger and poverty and care for the earth by providing farm animals to impoverished families around the world. Consider the data in the following table.

GEOGRAPHICAL AREAS OF NEED	NUMBER OF FAMILIES ASSISTED DIRECTLY AND INDIRECTLY BY HEIFER INTERNATIONAL IN 2011
Africa	220,275
Americas	934,871
Asia, South Pacific	407,640
Central and Eastern Europe	344,945

SOURCE: Heifer International 2011 Annual Report

Answers

1. 2 ten thousands 2. 2 hundred thousands
3. 2 millions 4. 2 ten millions 5. 2 tens
6. 2 hundreds 7. 1

The number of families assisted in the Americas was 934,871. This number is expressed in **standard notation**. We write **expanded notation** for 934,871 as follows:

$$934,871 = 9 \text{ hundred thousands} + 3 \text{ ten thousands} \\ + 4 \text{ thousands} + 8 \text{ hundreds} \\ + 7 \text{ tens} + 1 \text{ one.}$$

EXAMPLE 7 Write expanded notation for 1815 ft, the height of the CN Tower in Toronto, Canada.

$$1815 = 1 \text{ thousand} + 8 \text{ hundreds} + 1 \text{ ten} + 5 \text{ ones}$$

EXAMPLE 8 Write expanded notation for 407,640, the number of families in Asia and the South Pacific assisted by Heifer International in 2011.

$$407,640 = 4 \text{ hundred thousands} + 0 \text{ ten thousands} \\ + 7 \text{ thousands} + 6 \text{ hundreds} + 4 \text{ tens} + 0 \text{ ones}$$

or

$$4 \text{ hundred thousands} + 7 \text{ thousands} + 6 \text{ hundreds} + 4 \text{ tens}$$

◀ **Do Exercises 8–11.**

C CONVERTING BETWEEN STANDARD NOTATION AND WORD NAMES

We often use **word names** for numbers. When we pronounce a number, we are speaking its word name. Russia won 82 medals in the 2012 Summer Olympics in London, Great Britain. A word name for 82 is “eighty-two.” Word names for some two-digit numbers like 36, 51, and 72 use hyphens. Others like that for 17 use only one word, “seventeen.”

2012 Summer Olympics Medal Count

COUNTRY	GOLD	SILVER	BRONZE	TOTAL
 United States of America	46	29	29	104
 People's Republic of China	38	27	23	88
 Russia	24	26	32	82
 Great Britain	29	17	19	65
 Germany	11	19	14	44

SOURCE: espn.go.com

Write expanded notation.

8. 2718 mi, the length of the Congo River in Africa

$$2718 = 2 \text{ } \square + 7 \text{ } \square \\ + \text{ } \square \text{ ten} + \text{ } \square \text{ ones}$$

GS

9. 344,945, the number of families in Central and Eastern Europe assisted by Heifer International in 2011
10. 1670 ft, the height of the Taipei 101 Tower in Taiwan
11. 104,094 square miles, the area of Colorado

Answers

8. 2 thousands + 7 hundreds + 1 ten + 8 ones
9. 3 hundred thousands + 4 ten thousands + 4 thousands + 9 hundreds + 4 tens + 5 ones
10. 1 thousand + 6 hundreds + 7 tens + 0 ones, or 1 thousand + 6 hundreds + 7 tens
11. 1 hundred thousand + 0 ten thousands + 4 thousands + 0 hundreds + 9 tens + 4 ones, or 1 hundred thousand + 4 thousands + 9 tens + 4 ones

Guided Solution:

8. thousands, hundreds, 1, 8

EXAMPLES Write a word name.

9. 46, the number of gold medals won by the United States

Forty-six

10. 19, the number of silver medals won by Germany

Nineteen

11. 104, the total number of medals won by the United States

One hundred four

Do Exercises 12–14. ▶

For word names for larger numbers, we begin at the left with the largest period. The number named in the period is followed by the name of the period; then a comma is written and the next number and period are named. Note that the name of the ones period is not included in the word name for a whole number.

EXAMPLE 12 Write a word name for 46,605,314,732.

The word “and” *should not* appear in word names for whole numbers. Although we commonly hear such expressions as “two hundred *and* one,” the use of “and” is not, strictly speaking, correct in word names for whole numbers. For decimal notation, it is appropriate to use “and” for the decimal point. For example, 317.4 is read as “three hundred seventeen *and* four tenths.”

Do Exercises 15–18. ▶

EXAMPLE 13 Write standard notation.

Do Exercise 19. ▶

Write a word name. (Refer to the chart on the previous page.)

12. 65, the total number of medals won by Great Britain

13. 14, the number of bronze medals won by Germany

14. 38, the number of gold medals won by the People’s Republic of China

Write a word name.

15. 204

16. \$44,640, the average annual wage for athletic trainers in the United States in 2012

Source: U.S. Bureau of Labor Statistics

- GS** 17. 1,879,204

One , eight
hundred thousand,
two hundred

18. 7,052,428,785, the world population in 2012

Source: U.S. Census Bureau

19. Write standard notation.

Two hundred thirteen
million, one hundred five
thousand, three hundred
twenty-nine

Answers

12. Sixty-five 13. Fourteen
14. Thirty-eight 15. Two hundred four
16. Forty-four thousand, six hundred forty
17. One million, eight hundred seventy-nine
thousand, two hundred four 18. Seven
billion, fifty-two million, four hundred
twenty-eight thousand, seven hundred
eighty-five 19. 213,105,329

Guided Solution:

17. Million, seventy-nine, four

 **Reading Check**

Complete each statement with the correct word from the following list.

digit expanded period standard

RC1. In 983, the _____ 9 represents 9 hundreds.

RC2. In 615,702, the number 615 is in the thousands _____.

RC3. The phrase “3 hundreds + 2 tens + 9 ones” is _____ notation for 329.

RC4. The number 721 is written in _____ notation.

a What does the digit 5 mean in each number?

1. 235,888

2. 253,777

3. 1,488,526

4. 500,736

Movie Receipts. The final movie of the Harry Potter series, *Harry Potter and the Deathly Hallows: Part II*, grossed \$1,328,111,219 worldwide.

27. 7,754,211,577

28. 43,550,651,808

29. **English Language Learners.** In the 2007–2008 academic year, there were 701,799 English language learners in Texas schools. Write a word name for 701,799.

Source: U.S. Department of Education

30. **College Football.** The 2012 Rose Bowl game was attended by 91,245 fans. Write a word name for 91,245.

Source: bizjournals.com

31. **Auto Racing.** Dario Franchitti, winner of the 2012 Indianapolis 500 auto race, won a prize of \$2,474,280. Write a word name for 2,474,280.

Source: sbnation.com

32. **Busiest Airport.** In 2010, the world’s busiest airport, Hartsfield-Jackson Atlanta International Airport, hosted 89,331,622 passengers. Write a word name for 89,331,622.

Source: Airports Council International

Write each number in standard notation.

33. Six hundred thirty-two thousand, eight hundred ninety-six
34. Three hundred fifty-four thousand, seven hundred two
35. Fifty thousand, three hundred twenty-four
36. Seventeen thousand, one hundred twelve
37. Two million, two hundred thirty-three thousand, eight hundred twelve
38. Nineteen million, six hundred ten thousand, four hundred thirty-nine
39. Eight billion
40. Seven hundred million
41. Forty million
42. Twenty-six billion
43. Thirty million, one hundred three
44. Two hundred thousand, seventeen

Write standard notation for the number in each sentence.

45. **Pacific Ocean.** The area of the Pacific Ocean is sixty-four million, one hundred eighty-six thousand square miles.
46. The average distance from the sun to Neptune is two billion, seven hundred ninety-three million miles.

Synthesis

To the student and the instructor: The Synthesis exercises found at the end of every exercise set challenge students to combine concepts or skills studied in the section or in preceding parts of the text. Exercises marked with a  symbol are meant to be solved using a calculator.

47. How many whole numbers between 100 and 400 contain the digit 2 in their standard notation?
48.  What is the largest number that you can name on your calculator? How many digits does that number have? How many periods?
