This book is dedicated to students everywhere—
and we should all be students. After all, is there anyone among
us who truly knows too much? Take that hint and continue
to learn something new every day of your life.

Best wishes from a fellow student:
Elayn Martin-Gay

Preface xiii

Applications Index xxiii

1

The Whole Numbers 1

- 1.1** Study Skill Tips for Success in Mathematics 2
- 1.2** Place Value, Names for Numbers, and Reading Tables 8
- 1.3** Adding Whole Numbers and Perimeter 17
- 1.4** Subtracting Whole Numbers 28
- 1.5** Rounding and Estimating 39
- 1.6** Multiplying Whole Numbers and Area 48
- 1.7** Dividing Whole Numbers 61
 - Integrated Review—Operations on Whole Numbers** 75
- 1.8** An Introduction to Problem Solving 77
- 1.9** Exponents, Square Roots, and Order of Operations 87
 - Vocabulary Check 97
 - Chapter Highlights 97
 - Chapter Review 101
 - Getting Ready for the Test 108
 - Chapter Test 109

2

Multiplying and Dividing Fractions 111

- 2.1** Introduction to Fractions and Mixed Numbers 112
- 2.2** Factors and Prime Factorization 124
- 2.3** Simplest Form of a Fraction 131
 - Integrated Review—Summary on Fractions, Mixed Numbers, and Factors** 141
- 2.4** Multiplying Fractions and Mixed Numbers 143
- 2.5** Dividing Fractions and Mixed Numbers 154
 - Vocabulary Check 163
 - Chapter Highlights 163
 - Chapter Review 166
 - Getting Ready for the Test 169
 - Chapter Test 170
 - Cumulative Review 172

3 Adding and Subtracting Fractions 175

- 3.1** Adding and Subtracting Like Fractions 176
- 3.2** Least Common Multiple 185
- 3.3** Adding and Subtracting Unlike Fractions 192
 - Integrated Review—Operations on Fractions and Mixed Numbers** 203
- 3.4** Adding and Subtracting Mixed Numbers 205
- 3.5** Order, Exponents, and the Order of Operations 216
- 3.6** Fractions and Problem Solving 223
 - Vocabulary Check 234
 - Chapter Highlights 234
 - Chapter Review 237
 - Getting Ready for the Test 242
 - Chapter Test 243
 - Cumulative Review 245

4 Decimals 248

- 4.1** Introduction to Decimals 249
- 4.2** Order and Rounding 256
- 4.3** Adding and Subtracting Decimals 265
- 4.4** Multiplying Decimals and Circumference of a Circle 276
 - Integrated Review—Operations on Decimals** 286
- 4.5** Dividing Decimals and Order of Operations 288
- 4.6** Fractions and Decimals 299
 - Vocabulary Check 308
 - Chapter Highlights 308
 - Chapter Review 310
 - Getting Ready for the Test 315
 - Chapter Test 316
 - Cumulative Review 318

5 Ratio, Proportion, and Percent 321

- 5.1** Ratio and Proportion 322
- 5.2** Introduction to Percent 338
- 5.3** Percents and Fractions 345
- 5.4** Solving Percent Problems Using Equations 352
- 5.5** Solving Percent Problems Using Proportions 360
 - Integrated Review—Ratio, Proportion, and Percent** 368
- 5.6** Applications of Percent 370
- 5.7** Percent and Problem Solving: Sales Tax, Commission, and Discount 381
- 5.8** Percent and Problem Solving: Interest 388
 - Vocabulary Check 395
 - Chapter Highlights 396
 - Chapter Review 400

11 Systems of Equations 851

- 11.1 Solving Systems of Linear Equations by Graphing 852
- 11.2 Solving Systems of Linear Equations by Substitution 863
- 11.3 Solving Systems of Linear Equations by Addition 871
- Integrated Review—Summary on Solving Systems of Equations 879
- 11.4 Systems of Linear Equations and Problem Solving 880
- Vocabulary Check 893
- Chapter Highlights 893
- Chapter Review 896
- Getting Ready for the Test 899
- Chapter Test 900
- Cumulative Review 902

12 Exponents and Polynomials 904

- 12.1 Exponents 905
- 12.2 Negative Exponents and Scientific Notation 917
- 12.3 Introduction to Polynomials 927
- 12.4 Adding and Subtracting Polynomials 937
- 12.5 Multiplying Polynomials 944
- 12.6 Special Products 951
- Integrated Review—Exponents and Operations on Polynomials 959
- 12.7 Dividing Polynomials 961
- Vocabulary Check 968
- Chapter Highlights 969
- Chapter Review 972
- Getting Ready for the Test 977
- Chapter Test 978
- Cumulative Review 980

13 Factoring Polynomials 983

- 13.1 The Greatest Common Factor and Factoring by Grouping 984
- 13.2 Factoring Trinomials of the Form $x^2 + bx + c$ 994
- 13.3 Factoring Trinomials of the Form $ax^2 + bx + c$ 1001
- 13.4 Factoring Trinomials of the Form $ax^2 + bx + c$ by Grouping 1008
- 13.5 Factoring Perfect Square Trinomials and the Difference of Two Squares 1013
- Integrated Review—Choosing a Factoring Strategy 1022
- 13.6 Solving Quadratic Equations by Factoring 1024
- 13.7 Quadratic Equations and Problem Solving 1032
- Vocabulary Check 1042
- Chapter Highlights 1042

- Chapter Review **1045**
- Getting Ready for the Test **1049**
- Chapter Test **1050**
- Cumulative Review **1052**

14 Rational Expressions **1055**

- 14.1** Simplifying Rational Expressions **1056**
- 14.2** Multiplying and Dividing Rational Expressions **1067**
- 14.3** Adding and Subtracting Rational Expressions with the Same Denominator and Least Common Denominator **1077**
- 14.4** Adding and Subtracting Rational Expressions with Different Denominators **1085**
- 14.5** Solving Equations Containing Rational Expressions **1092**
 - Integrated Review—Summary on Rational Expressions** **1101**
- 14.6** Rational Equations and Problem Solving **1103**
- 14.7** Simplifying Complex Fractions **1111**
 - Vocabulary Check **1119**
 - Chapter Highlights **1120**
 - Chapter Review **1124**
 - Getting Ready for the Test **1128**
 - Chapter Test **1129**
 - Cumulative Review **1131**

15 Roots and Radicals **1134**

- 15.1** Introduction to Radicals **1135**
- 15.2** Simplifying Radicals **1143**
- 15.3** Adding and Subtracting Radicals **1151**
- 15.4** Multiplying and Dividing Radicals **1155**
 - Integrated Review—Simplifying Radicals** **1164**
- 15.5** Solving Equations Containing Radicals **1166**
- 15.6** Radical Equations and Problem Solving **1172**
 - Vocabulary Check **1180**
 - Chapter Highlights **1180**
 - Chapter Review **1183**
 - Getting Ready for the Test **1186**
 - Chapter Test **1187**
 - Cumulative Review **1189**

16 Quadratic Equations and Nonlinear Graphs **1192**

- 16.1** Solving Quadratic Equations by the Square Root Property **1193**
- 16.2** Solving Quadratic Equations by Completing the Square **1200**
- 16.3** Solving Quadratic Equations by the Quadratic Formula **1205**
 - Integrated Review—Summary on Solving Quadratic Equations** **1214**
- 16.4** Graphing Quadratic Equations in Two Variables **1217**

16.5	Interval Notation, Finding Domains and Ranges from Graphs, and Graphing Piecewise-Defined Functions	1226
	Vocabulary Check	1235
	Chapter Highlights	1235
	Chapter Review	1237
	Getting Ready for the Test	1241
	Chapter Test	1242
	Cumulative Review	1244

Appendices

Appendix A	Further Algebraic Topics	1248
A.1	Factoring Sums and Differences of Cubes	1248
A.2	Sets and Compound Inequalities	1250
A.3	Absolute Value Equations and Inequalities	1257
A.4	The Distance and Midpoint Formulas	1267
A.5	Writing Equations of Parallel and Perpendicular Lines	1269
A.6	Nonlinear Inequalities in One Variable	1271
A.7	Rational Exponents	1277
A.8	Systems of Linear Inequalities	1283
Appendix B	Tables	1287
B.1	Table of Squares and Square Roots	1287
B.2	Table of Percents, Decimals, and Fraction Equivalents	1288
B.3	Compound Interest	1289

Preface

Developmental Mathematics, Fourth Edition was written to provide a solid foundation in arithmetic and algebra as well as to develop problem-solving skills. It is intended for basic math and introductory algebra courses; however, all of the necessary intermediate topics are included in the appendices for those wishing to extend the course to intermediate algebra. Specific care was taken to make sure students have the most up-to-date relevant text preparation for their next mathematics course or for non-mathematical courses that require an understanding of algebraic fundamentals. I have tried to achieve this by writing a user-friendly text that is keyed to objectives and contains many worked-out examples. As suggested by AMATYC and the NCTM Standards (plus Addenda), real-life and real-data applications, data interpretation, conceptual understanding, problem solving, writing, cooperative learning, appropriate use of technology, number sense, estimation, critical thinking, and geometric concepts are emphasized and integrated throughout the book.

The many factors that contributed to the success of the previous edition have been retained. In preparing the Fourth Edition, I considered comments and suggestions of colleagues, students, and many users of the prior edition throughout the country.

What's New in the Fourth Edition?

- **The Martin-Gay Program** has been revised and enhanced with a new design in the text and MyLab Math to actively encourage students to use the text, video program, and Video Organizer as an integrated learning system.
- **New Getting Ready for the Test** can be found before each Chapter Test. These exercises can increase student success by helping students prepare for their Chapter Test. The purpose of these exercises is to check students' conceptual understanding of the topics in the chapter as well as common student errors. It is suggested that students complete and check these exercises before taking a practice Chapter Test. All Getting Ready for the Test exercises are either Multiple Choice or Matching, and all answers can be found in the answer section of this text.

Video Solutions of all exercises can be found in MyLab Math. These video solutions contain brief explanations and reminders of material in the chapter. Where applicable, incorrect choices contain explanations.

Getting Ready for the Test exercise numbers marked in blue indicate that the exercise is available in **Learning Catalytics**. 

- **New Learning Catalytics** is an interactive student response tool that uses students' smartphones, tablets, or laptops to engage them in more sophisticated tasks and thinking. Generate class discussion, guide your lecture, and promote peer-to-peer learning with real-time analytics. Accessible through MyLab Math, instructors can use Learning Catalytics to:
 - Pose a variety of open-ended questions that help your students develop critical thinking skills.
 - Monitor responses to find out where students are struggling.
 - Use real-time data to adjust your instructional strategy and try other ways of engaging students during class.
 - Manage student interactions by automatically grouping students for discussion, teamwork, and peer-to-peer learning.

- Pearson-created questions for developmental math topics are available to allow you to take advantage of this exciting technology. Additionally, “Getting Ready for the Test” exercises (marked in blue) are available in Learning Catalytics. Search the question library for “MGDevMath” and the chapter number, for example, MGDevMath7 would be the questions from Chapter 7.
- **New Key Concept Activity Lab Workbook** includes Extension Exercises, Exploration Activities, Conceptual Exercises, and Group Activities. These activities are a great way to engage students in conceptual projects and exploration as well as group work. This workbook is available in MyLab Math, or can be packaged with a text or MyLab code.
- **Exercise Sets** have been carefully examined and revised. Special focus was placed on making sure that even- and odd-numbered exercises are carefully paired and that real-life applications are updated.
- **The Martin-Gay MyLab Math** course has been updated and revised to provide more exercise coverage, including assignable Video Check questions and an expanded video program. There are Lecture Videos for every section, which students can also access at the specific objective level; Student Success Tips videos; and an increased number of video clips at the exercise level to help students while doing homework in MyLab Math. Suggested homework assignments have been premade for assignment at the instructor’s discretion.

Key Pedagogical Features

The following key features have been retained and/or updated for the Fourth Edition of the text:

- **Problem-Solving Process** This is formally introduced in Chapter 1 with a four-step process that is integrated throughout the text. The four steps are **Understand**, **Translate**, **Solve**, and **Interpret**. The repeated use of these steps in a variety of examples shows their wide applicability. Reinforcing the steps can increase students’ comfort level and confidence in tackling problems.
- **Exercise Sets Revised and Updated** The exercise sets have been carefully examined and extensively revised. Special focus was placed on making sure that even- and odd-numbered exercises are paired and that real-life applications were updated.
- **Examples** Detailed, step-by-step examples were added, deleted, replaced, or updated as needed. Many examples reflect real life. Additional instructional support is provided in the annotated examples.
- **Practice Exercises** Throughout the text, each worked-out example has a parallel Practice exercise. These invite students to be actively involved in the learning process. Students should try each Practice Exercise after finishing the corresponding example. Learning by doing will help students grasp ideas before moving on to other concepts. Answers to the Practice Exercises are provided at the bottom of each page.
- **Helpful Hints** Helpful Hints contain practical advice on applying mathematical concepts. Strategically placed where students are most likely to need immediate reinforcement, Helpful Hints help students avoid common trouble areas and mistakes.
- **Concept Checks** This feature allows students to gauge their grasp of an idea as it is being presented in the text. Concept Checks stress conceptual understanding at the point-of-use and help suppress misconceived notions before they start. Answers appear at the bottom of the page. Exercises related to Concept Checks are included in the exercise sets.
- **Mixed Practice Exercises** In the section exercise sets, these exercises require students to determine the problem type and strategy needed to solve it just as they would need to do on a test.

- **Integrated Reviews** This unique mid-chapter exercise set helps students assimilate new skills and concepts that they have learned separately over several sections. These reviews provide yet another opportunity for students to work with “mixed” exercises as they master the topics.
- **Vocabulary Check** This feature provides an opportunity for students to become more familiar with the use of mathematical terms as they strengthen their verbal skills. These appear at the end of each chapter before the Chapter Highlights.
- **Vocabulary, Readiness & Video Check Questions** are assignable for each section of the text and in MyLab Math. **Vocabulary** exercises check student understanding of new terms. The **Readiness** exercises center on a student’s understanding of a concept that is necessary in order to continue to the exercise set. The **Video Check questions** correlate to the videos in MyLab Math, and are a great way to assess whether students have viewed and understood the key concepts presented in the videos. Answers to all Video Check questions are available in an answer section at the back of the text.
- **Chapter Highlights** Found at the end of every chapter, these contain key definitions and concepts with examples to help students understand and retain what they have learned and help them organize their notes and study for tests.
- **Chapter Review** The end of every chapter contains a comprehensive review of topics introduced in the chapter. The Chapter Review offers exercises keyed to every section in the chapter, as well as Mixed Review exercises that are not keyed to sections.
- **Chapter Test and Chapter Test Prep Videos** The Chapter Test is structured to include those problems that involve common student errors. The **Chapter Test Prep Videos** gives students instant access to a step-by-step video solution of each exercise in the Chapter Test.
- **Cumulative Review** This review follows every chapter in the text (except Chapter 1). Each odd-numbered exercise contained in the Cumulative Review is an earlier worked example in the text that is referenced in the back of the book along with the answer.
- **Writing Exercises**  These exercises occur in almost every exercise set and require students to provide a written response to explain concepts or justify their thinking.
- **Applications** Real-world and real-data applications have been thoroughly updated, and many new applications are included. These exercises occur in almost every exercise set and show the relevance of mathematics and help students gradually and continuously develop their problem-solving skills.
- **Review Exercises** These exercises occur in each exercise set (except in Chapter 1) and are keyed to earlier sections. They review concepts learned earlier in the text that will be needed in the next section or chapter.
- **Exercise Set Resource Icons** Located at the opening of each exercise set, these icons remind students of the resources available for extra practice and support:

MyLab Math

See Student Resources descriptions on page xvii for details on the individual resources available.

- **Exercise Icons** These icons facilitate the assignment of specialized exercises and let students know what resources can support them.
 -  Video icon: exercise worked on the Interactive Lecture Series.
 -  Triangle icon: identifies exercises involving geometric concepts.
 -  Pencil icon: indicates a written response is needed.
 -  Calculator icon: optional exercises intended to be solved using a scientific or graphing calculator.

- **Group Activities** Found at the end of each chapter, these activities are for individual or group completion, and are usually hands-on or data-based activities that extend the concepts found in the chapter, allowing students to make decisions and interpretations and to think and write about algebra.
- **Optional: Calculator Exploration Boxes and Calculator Exercises** The optional Calculator Explorations provide keystrokes and exercises at appropriate points to give students an opportunity to become familiar with these tools. Section exercises that are best completed by using a calculator are identified by  for ease of assignment.
- **The Video Organizer** workbook is designed to help students take notes and work practice exercises while watching the Interactive Lecture Series videos in MyLab Math, making it easy for students to create a course notebook and build good study habits.
 - Covers all of the video examples in order.
 - Provides ample space for students to write down key definitions and properties.
 - Includes “Play” and “Pause” button icons to prompt students to follow along with the author for some exercises while they try others on their own.

The Video Organizer is available in a loose-leaf, notebook-ready format, or can be downloaded from the MyLab Math course.

- **Interactive Lecture Series**, featuring Elayn Martin-Gay, provides students with learning at their own pace. The videos offer the following resources and more:
 - **A complete lecture for each section of the text** highlights key examples and exercises from the text. “Pop-ups” reinforce key terms, definitions, and concepts.
 - **An interface with menu navigation features** allows students to quickly find and focus on the examples and exercises they need to review.
 - **Interactive Concept Check** exercises measure students’ understanding of key concepts and common trouble spots.
 - **Student Success Tip Videos** are in short segments designed to be daily reminders to be organized and to study.
 - **The Chapter Test Prep Videos** help students during their most teachable moment—when they are preparing for a test. This innovation provides step-by-step solutions for the exercises found in each Chapter Test.
 - **The Practice Final Exam Videos** help students prepare for an end-of-course final. Students can watch full video solutions to each exercise in the Practice Final Exam at the end of this text.

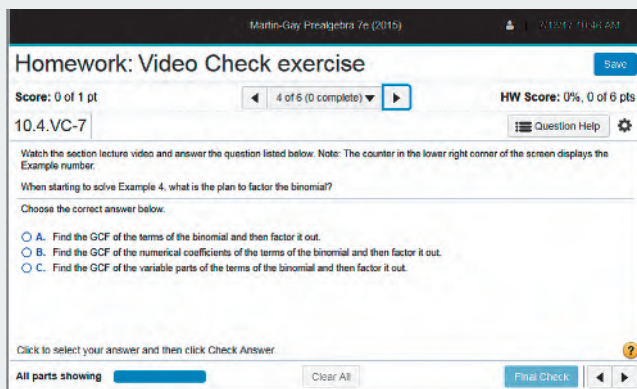

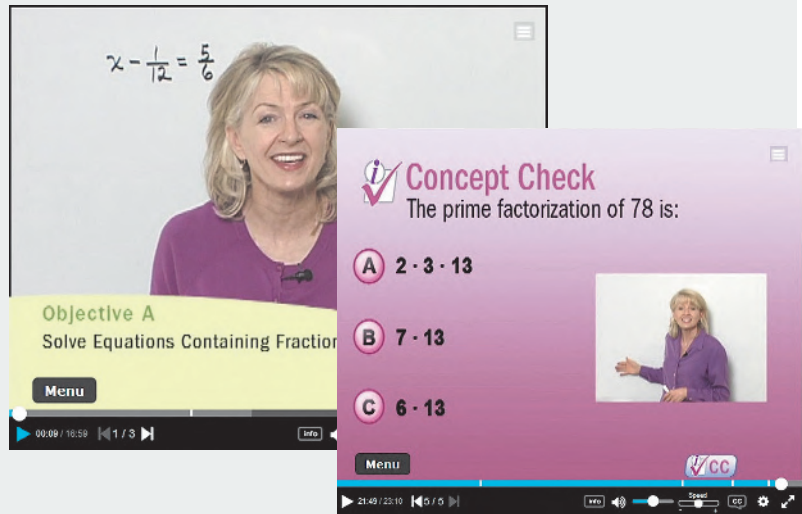

Resources for Success

Get the Most Out of MyLab Math for *Developmental Mathematics*, Fourth Edition by Elayn Martin-Gay

Elayn Martin-Gay believes that every student can succeed, and every MyLab course that accompanies her texts is infused with her student-centric approach. The seamless integration of Elayn’s signature support with the #1 choice in digital learning for developmental math gives students a completely consistent experience from print to MyLab.

A Comprehensive and Dynamic Video Program

The **Martin-Gay video program** is 100% presented by Elayn Martin-Gay in her clear, approachable style. The video program includes full section lectures and smaller objective level videos. Within many section lecture videos, **Interactive Concept Checks** measure students’ understanding of concepts and common trouble spots—students are asked to try a question within the video in order, after which correct and incorrect answers are explained.

Assignable **Video Check questions** ensure that students have viewed and understood the key concepts from the section lecture videos.

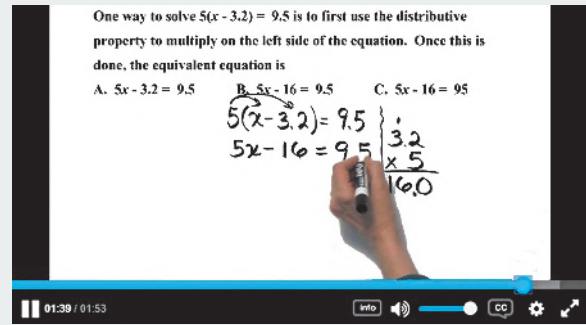

Supporting College Success

Other hallmark Martin-Gay videos include **Student Success Tip videos**, which are short segments designed to be daily reminders to stay organized and to study. Additionally in keeping with Elayn’s belief that every student can succeed, a new **Mindset module** is available in the course, with mindset-focused videos and exercises that encourage students to maintain a positive attitude about learning, value their own ability to grow, and view mistakes as a learning opportunity.

Resources for Success

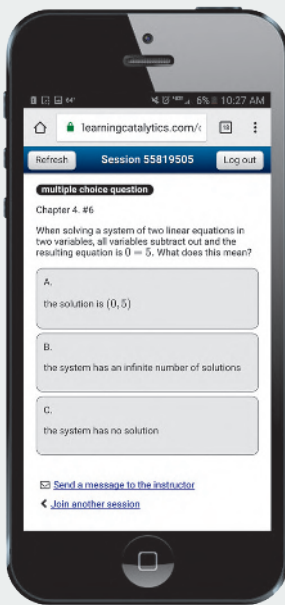

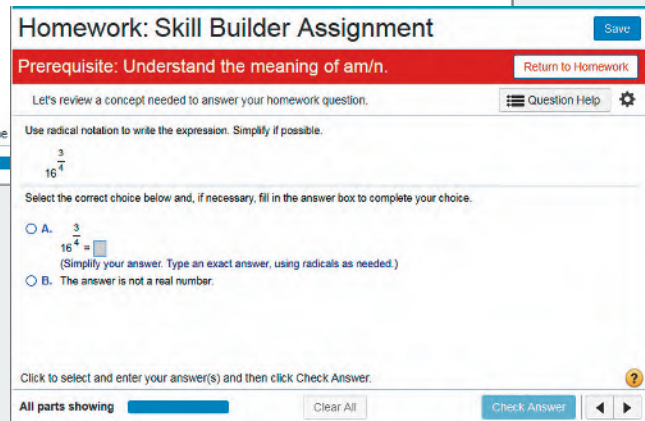

Resources for Review

New! Getting Ready for the Test video solutions cover every Getting Ready for the Test exercise. These appear at the end of each chapter and give students an opportunity to assess whether they understand the big picture concepts of the chapter, and help them focus on avoiding common errors. Students also have **Chapter Test Prep videos**, a Martin-Gay innovation, to help during their most teachable moment —when preparing for a test.

Personalize Learning

New! Skill Builder exercises offer just-in-time additional adaptive practice. The adaptive engine tracks student performance and delivers questions to each individual that adapt to his or her level of understanding. This new feature allows instructors to assign fewer questions for homework, allowing students to complete as many or as few questions as they need.

Get Students Engaged

New! Learning Catalytics Martin-Gay-specific questions are pre-built and available through MyLab Math. Learning Catalytics is an interactive student response tool that uses students' smartphones, tablets, or laptops to engage them in more sophisticated tasks and thinking. **Getting Ready for the Test** exercises marked in blue in the text are pre-built in Learning Catalytics to use in class. These questions can be found in Learning Catalytics by searching for "MGDevMath#" where # is the chapter number.

Resources for Success

Instructor Resources

Annotated Instructor's Edition

Contains all the content found in the student edition, plus answers to even and odd exercises on the same text page, and Teaching Tips throughout the text placed at key points.

The resources below are available through Pearson's Instructor Resource Center, or from MyLab Math.

Instructor's Resource Manual with Tests and Mini-Lectures

Includes mini-lectures for each text section, additional practice worksheets for each section, several forms of tests per chapter—free response and multiple choice, and answers to all items.

Instructor's Solutions Manual

Contains detailed, worked-out solutions to even-numbered exercises in the text.

TestGen®

Enables instructors to build, edit, print, and administer tests using a computerized bank of questions developed to cover all the objectives of the text. TestGen is algorithmically based, allowing instructors to create multiple but equivalent versions of the same question or test with the click of a button. Instructors can also modify test bank questions or add new questions.

Instructor-to-Instructor Videos

Provide instructors with suggestions for presenting course material as well as time-saving teaching tips.

PowerPoint Lecture Slides

Available for download only, these slides present key concepts and definitions from the text.

Student Resources

Video Organizer

Designed to help students take notes and work practice exercises while watching the Interactive Lecture Series videos.

- Covers all of the video examples in order.
- Provides prompts with ample space for students to write down key definitions and rules.
- Includes "Play" and "Pause" button icons to prompt students to follow along with the author for some exercises while they try others on their own.
- Includes Student Success Tips Outline and Questions.

Available printed in a loose-leaf, notebook-ready format and to download in MyLab Math. All answers are available in Instructor Resources in MyLab Math.

New! Key Concept Activity Lab Workbook

Includes Extension Exercises, Exploration Activities, Conceptual Exercises, and Group Activities. This workbook is available in MyLab Math, or can be packaged in printed form with a text or MyLab Math code. All answers available in Instructor Resources in MyLab Math.

Student Solutions Manual

Provides completely worked-out solutions to the odd-numbered section exercises; all exercises in the Integrated Reviews, Chapter Reviews, Chapter Tests, and Cumulative Reviews.

Acknowledgments

There are many people who helped me develop this text, and I will attempt to thank some of them here. Courtney Slade and Cindy Trimble were *invaluable* for contributing to the overall accuracy of the text. Gina Linko and Patty Bergin provided guidance throughout the production process and Suellen Robinson provided many suggestions for updating applications during the writing of this Fourth Edition.

A very special thank you goes to my editor, Rachel Ross. And, my thanks to the staff at Pearson for all their support: Barbara Atkinson, Alicia Frankel, Michael Hirsch, Chris Hoag, Paul Corey, Michelle Renda, Jenny Crum and Lauren Schur among many others.

I would like to thank the following reviewers for their input and suggestions that have affected this and previous editions:

Lisa Angelo, <i>Bucks Community College</i>	Teresa Hasenauer, <i>Indian River College</i>
Victoria Baker, <i>Nicholls State College</i>	Julia Hassett, <i>Oakton Community College</i>
Teri Barnes, <i>McLennan Community College</i>	Jeff Koleno, <i>Lorain County Community College</i>
Laurel Berry, <i>Bryant & Stratton</i>	Judy Langer, <i>Westchester Community College</i>
Thomas Blackburn, <i>Northeastern Illinois University</i>	Sandy Lofstock, <i>St. Petersburg College</i>
Gail Burkett, <i>Palm Beach Community College</i>	Stan Mattoon, <i>Merced College</i>
Anita Collins, <i>Mesa Community College</i>	Dr. Kris Mudunuri, <i>Long Beach City College</i>
Lois Colpo, <i>Harrisburg Area Community College</i>	Carol Murphy, <i>San Diego Miramar College</i>
Fay Dang, <i>Joliet Junior College</i>	Greg Nguyen, <i>Fullerton College</i>
Robert Diaz, <i>Fullerton College</i>	Jean Olsen, <i>Pikes Peak Community College</i>
Tamie Dickson, <i>Reading Area Community College</i>	Darlene Ornelas, <i>Fullerton College</i>
Latonya Ellis, <i>Gulf Coast Community College</i>	Warren Powell, <i>Tyler Junior College</i>
Sonia Ford, <i>Midland College</i>	Jeanette Shea, <i>Central Texas College</i>
Cheryl Gibby, <i>Cypress College</i>	Katerina Vishnyakova, <i>Collin County Community College</i>
Kathryn Gunderson, <i>Three Rivers Community College</i>	Corey Wadlington, <i>West Kentucky Community and Technical College</i>
Elizabeth Hamman, <i>Cypress College</i>	Edward Wagner, <i>Central Texas College</i>
Craig Hardesty, <i>Hillsborough Community College</i>	Jenny Wilson, <i>Tyler Junior College</i>
Lloyd Harris, <i>Gulf Coast Community College</i>	

I would also like to thank the following dedicated group of instructors who participated in our focus groups, Martin-Gay Summits, and our design review for the series. Their feedback and insights have helped to strengthen this edition of the text. These instructors include:

Billie Anderson, <i>Tyler Junior College</i>	Cheryl Cantwell, <i>Seminole Community College</i>
Cedric Atkins, <i>Mott Community College</i>	Jackie Cohen, <i>Augusta State College</i>
Lois Beardon, <i>Schoolcraft College</i>	Julie Dewan, <i>Mohawk Valley Community College</i>
Laurel Berry, <i>Bryant & Stratton</i>	Janice Ervin, <i>Central Piedmont Community College</i>
John Beyers, <i>University of Maryland</i>	Richard Fielding, <i>Southwestern College</i>
Bob Brown, <i>Community College of Baltimore County–Essex</i>	Cindy Gaddis, <i>Tyler Junior College</i>
Lisa Brown, <i>Community College of Baltimore County–Essex</i>	Nita Graham, <i>St. Louis Community College</i>
NeKeith Brown, <i>Richland College</i>	Pauline Hall, <i>Iowa State College</i>
Gail Burkett, <i>Palm Beach Community College</i>	Pat Hussey, <i>Triton College</i>

Dorothy Johnson, <i>Lorain County Community College</i>	Greg Nguyen, <i>Fullerton College</i>
Sonya Johnson, <i>Central Piedmont Community College</i>	Eric Oilila, <i>Jackson Community College</i>
Irene Jones, <i>Fullerton College</i>	Linda Padilla, <i>Joliet Junior College</i>
Paul Jones, <i>University of Cincinnati</i>	Davidson Pierre, <i>State College of Florida</i>
Kathy Kopelousous, <i>Lewis and Clark Community College</i>	Marilyn Platt, <i>Gaston College</i>
Nancy Lange, <i>Inver Hills Community College</i>	Ena Salter, <i>Manatee Community College</i>
Judy Langer, <i>Westchester Community College</i>	Carole Shapero, <i>Oakton Community College</i>
Lisa Lindloff, <i>McLinnan Community College</i>	Janet Sibol, <i>Hillsborough Community College</i>
Sandy Lofstock, <i>St. Petersburg College</i>	Anne Smallen, <i>Mohawk Valley Community College</i>
Kathy Lovelle, <i>Westchester Community College</i>	Barbara Stoner, <i>Reading Area Community College</i>
Jean McArthur, <i>Joliet Junior College</i>	Jennifer Strehler, <i>Oakton Community College</i>
Kevin McCandless, <i>Evergreen Valley College</i>	Ellen Stutes, <i>Louisiana State University Elinice</i>
Daniel Miller, <i>Niagra County Community College</i>	Tanomo Taguchi, <i>Fullerton College</i>
Marica Molle, <i>Metropolitan Community College</i>	MaryAnn Tuerk, <i>Elsin Community College</i>
Carol Murphy, <i>San Diego Miramar College</i>	Walter Wang, <i>Baruch College</i>
	Leigh Ann Wheeler, <i>Greenville Technical Community College</i>
	Valerie Wright, <i>Central Piedmont Community College</i>

A special thank you to those students who participated in our design review: Katherine Browne, Mike Bulfin, Nancy Canipe, Ashley Carpenter, Jeff Chojnachi, Roxanne Davis, Mike Dieter, Amy Dombrowski, Kay Herring, Todd Jaycox, Kaleena Levan, Matt Montgomery, Tony Plese, Abigail Polkinghorn, Harley Price, Eli Robinson, Avery Rosen, Robyn Schott, Cynthia Thomas, and Sherry Ward.

Elayn Martin-Gay

Personal Acknowledgements

I would like to personally thank my extended family. Although this list has grown throughout the years, it still warrants mentioning in my texts as each of these family members has contributed to my work in one way or another – from suggesting application exercises with data and updating/upgrading my computer to understanding that I usually work on “Vacations.” I am deeply grateful to them all:

Clayton, Bryan (in heaven), Eric, Celeste, and Tové Gay; Leo and Barbara Miller; Mark and Madison Martin and Carrie Howard; Stuart and Earline Martin; Karen Martin Callac Pasch (in heaven); Michael, Christopher, Matthew, Nicole, and Jessica Callac; Dan Kirk; Keith, Mandy, Erin, and Clayton McQueen, Bailey Martin, Ethan, Avery, and Mia Barnes; Melissa and Belle Landrum.

About the Author

Elayn Martin-Gay has taught mathematics at the University of New Orleans for more than 25 years. Her numerous teaching awards include the local University Alumni Association’s Award for Excellence in Teaching, and Outstanding Developmental Educator at University of New Orleans, presented by the Louisiana Association of Developmental Educators.

Prior to writing textbooks, Elayn Martin-Gay developed an acclaimed series of lecture videos to support developmental mathematics students in their quest for success. These highly successful videos originally served as the foundation material for her texts. Today, the videos are specific to each book in the Martin-Gay series.

The author has also created Chapter Test Prep Videos to help students during their most “teachable moment”—as they prepare for a test—along with Instructor-to-Instructor videos that provide teaching tips, hints, and suggestions for each developmental mathematics course, including basic mathematics, prealgebra, beginning algebra, and intermediate algebra.

Elayn is the author of 13 published textbooks, and a new Interactive Assignment MyLab Math course, all specializing in developmental mathematics courses. She has also published series in Algebra 1, Algebra 2, and Geometry. She has participated as an author across the broadest range of educational materials: textbooks, videos, tutorial software, and courseware. This provides an opportunity of various combinations for an integrated teaching and learning package offering great consistency for the student.

Applications Index

Advertising/marketing

- ad spending by media type, 878
- area of indoor sign, 446
- billboard dimensions, 694, 727
- billboard painting requirements, 280
- billboard side length ratios, 331
- mobile Internet expenditures, 47
- sign dimensions, 691
- television advertising expenditures, 105

Agriculture

- apple production, 342, 678, 968
- apple types grown in Washington State, 512
- bamboo growth height, 35
- bushels of oranges picked, 544
- cherry production, 342
- corn production, 45, 564
- cranberry production in selected states, 706
- cropland prices in U.S., 786
- farm crop values, 406, 707
- farm numbers in U.S., 380, 747
- farm size in U.S., 380, 707
- farms in selected states, 901
- flowering plants native to U.S., 162
- garden measurements, 173, 683, 686, 692, 981, 1041
- kelp growth height, 35
- length of shadow cast by tree, 473–474
- orange production, 993
- peach production, 21
- tree heights, 465, 469–470, 473, 1052
- tree trunk girths, 209
- wheat production in selected states, 501, 506

Animals

- animal pen side lengths, 694
- bat wingbeats, 333
- bluebird sizes, 212
- cheetah running speed, 1072
- cockroach speed, 262
- condor population increase, 37
- cricket chirps, 683, 693
- dog food unit rate, 368
- dog households, 282
- endangered species in U.S., 495, 1053
- fish numbers in tanks, 693
- flea dip solution, 151
- flying fish travel time, 696
- grain consumption by cows, 59
- horse pasture dimensions, 891
- hummingbird wingbeats, 333
- killer bee and honey bee chasing behaviors, 200
- legal lobster size, 209
- lion cub weights, 231

- lobster weights, 233
- mosquito control substance amounts, 335
- number of neon tetras in fish tank, 474
- peregrine falcon diving speed, 1075
- pet-related expenditures, 745
- sheep population, 26
- sloth travel time, 200
- threatened mammal species in selected countries, 172
- threatened species estimation, 21–22
- time for hyena to overtake giraffe, 1111
- trout weights, 208, 213, 231
- volume of cylindrical aquarium tank, 457
- volume of kennels, 457
- wire needed for horse corral, 298

Astronomy/space

- alignments of planets, 1084
- angstrom length, 973
- astronaut James A. Lovell spaceflight information, 274
- comet tails, 312
- commercial space launches worldwide, 503
- day of week a data falls on, 1118
- diameter of Milky Way, 973
- distance between Earth and Moon, 14, 276
- distance between Earth and Sun, 285
- distance light travels over time, 925
- distance of planets from Sun, 114, 312, 317
- elevation of optical telescope, 924
- energy conversion by Sun, 924
- height of space launch gantry, 474
- Hubble mirror defect, 304
- International Space Station orbit altitude, 14
- meteorite weights, 648, 681
- ozone hole growth, 35
- planet day lengths, 120, 263
- planet orbits, 44, 254, 263
- planet radius/diameter calculations, 32, 284
- planets with moons, 240
- rope needed to wrap around Earth, 694
- satellites of each planet, 681
- solar eclipse durations, 214, 230
- star magnitudes, 565
- surface temperatures of planets, 609
- temperatures on planets, 696
- time for “space plane” to travel around Earth, 692
- visual distance of optical telescope, 924
- volume of planet Jupiter, 973

- volume of planetarium domes, 457
- wavelengths observable by optical telescope, 926
- weight of person above Earth, 828–829
- weight of person on Earth, 72

Automotive/motor vehicles

- auto thefts in western U.S., 347
- automobile age, 784
- car color, 166, 167, 338, 490
- car ownership costs, 268, 272, 283
- car price increases, 378
- car rental charges/budgeting, 673, 678, 680, 822
- car rental fees and mileage charges, 888
- car sales, 682
- cost of owning SUV, 784
- Ford Motor Company sales, 380
- fuel economy for autos, 785
- gas mileage calculations, 32, 168, 171, 229, 255, 296, 334, 401
- gasoline prices, 408
- gasoline/alcohol mixture, 329
- hybrid auto sales in U.S., 797
- motorcycle exports by China, 342
- motorcycle sales, 26
- purchase price covered by trade-in, 139
- race car gas mileage, 255
- registered vehicles, 103, 372–373
- truck hauling rates, 72
- truck sales, 21, 26, 172, 318, 682

Aviation

- aircraft gas consumption, 244
- aircraft in FedEx air fleet, 162
- airport arrivals/departures, 38
- flight time calculations, 197
- fuel used per hour in flight, 1309
- hang glider flight speed, 692
- helium content of Goodyear blimps, 14, 83
- runway length at airport, 695
- vertical elevation changes in flight, 592

Business

- Albertsons grocery store locations, 139
- amount spent on food in restaurant industry, 350
- Barnes & Noble stores in U.S., 770
- billable hours, 378
- brand values, 44
- break-even point, 892
- Burger King restaurants worldwide, 44
- commission on sales, 383, 386–387, 399, 402, 403, 406, 552
- commission rate, 384, 386–387
- cost of each item, 1309
- Costco membership enrollment, 749

Business (continued)

customers ordering lunch at restaurant, 233
 CVS Pharmacy store locations, 27
 data item frequency, 526–527, 537, 541–542, 545, 549–550
 defective products, 375, 378
 delivery service costs, 1150
 discount, 384–385, 387, 399, 402, 403, 406, 639, 699–700, 704, 1309
 downsizing figures, 708
 employee numbers decrease, 379
 estimated total costs, 46
 Gap Corporation stores worldwide, 27
 gross profit margin, 1066
 Hallmark employees in Kansas City, 139
 hourly minimum wage, 810
 hourly pay, 84, 402
 hours worked on the job, 539, 673–674
 IKEA annual revenue, 758
 IKEA employees by region, 123
 jewelry prices, 160
 labor estimates, 1104–1105, 1106, 1107, 1108, 1126, 1133
 losses, 609
 manufacturing costs, 831, 842
 markup, 699–700, 707, 728
 minimum sales per month, 715, 729
 net income, 584
 new price, 707, 708, 728
 online sales, 191, 222, 689
 online spending, 514
 original price, 705, 889
 pay for selected number of hours worked, 831
 percent decrease, 373, 639, 699–700, 707
 percent increase, 347, 707, 728, 729
 percent off, 347
 PetSmart employee numbers, 84
 plant water flow rate, 1076
 price after discount, 102, 699–700, 704
 price decrease, 708
 price difference between items, 46
 price increase, 378
 price of each item, 886, 887, 892
 print newspaper industry, 770
 production costs, 747, 1040, 1066
 production decrease, 376
 production numbers and costs, 770
 profit, 707, 797
 purchase price, 382, 386, 403
 purpose of trips, 698–699
 quantity pricing, 745
 restaurant sales, 343, 759, 1213
 restaurant-industry employment, 343
 retail sales, 1213
 revenue from product sales, 1205
 salary after pay raise, 705
 salary increase, 378
 sale price, 36, 384–385, 387, 402, 403, 406, 639, 708, 1309

sales tax, 350, 382, 385–386, 399, 402, 403, 406, 552
 sales tax rate, 383, 385–386, 388, 406
 shared earnings, 68
 side length of glass cube entrance to Apple Store, 1150
 sporting goods sales, 739
 Starbucks locations in U.S., 720
 Target sales categories, 183
 Target store locations, 84
 tipping calculations, 388, 704
 total cost of several items, 85, 86, 105, 110
 total earnings, 102
 total price, 386, 552
 T-shirt costs by size, 59
 units manufactured at specific cost, 1040
 wage and productivity, 747
 weekly wrapping paper sales, 546–547
 work hours required to complete order, 160
 work shifts at McDonald's, 138

Chemistry/physics

Avogadro's number, 924
 decibel levels of common sounds, 37
 distance spring stretches, 831, 842
 DNA diameter, 926
 geodesic dome angle measures, 682
 oxygen supply rate from lawns, 336
 period of pendulum, 832, 1142
 radio wave travel distance, 285
 red blood cell diameter, 926
 resistors in parallel, 1118
 solutions/mixtures, 329, 702–703, 705, 707, 708, 723–724, 728, 884–885, 889, 890, 891, 897, 901, 1312

Demographics/populations

children born to each woman, 708
 correctional officers employed in U.S., 380
 daily coffee drinkers, 405
 employed people in 2016, 343
 employment predictions, 376, 707, 787
 executives in their 40s, 339
 fastest-growing occupation, 344, 395
 female veterinarians in private practice, 350
 fraction of employees who are men/women, 120
 households with no landline telephones, 342
 households with television, 783
 Iceland's population, 13
 international tourist arrivals to U.S., 832
 male veterinarians in private practice, 376
 Maori population of New Zealand, 153
 movie/TV industry businesses with fewer than 10 employees, 376, 728
 national debt of selected countries, 924

nurse practitioners employed in U.S., 707
 nurse shortages, 371
 occupational therapy assistant employment predictions, 376
 occupations with highest numerical increase, 515
 overnight stays at national parks, 704
 percent of U.S. armed forces in each branch, 509–510
 per-square-mile density in U.S., 797
 population by age groups, 548
 population increases/decreases/densities, 44, 102, 263, 374, 377, 379, 381, 398, 406
 population of cities, 502
 population of sheep vs. people in New Zealand, 26
 population over age 65, 60
 population projections/estimates, 25, 36, 37, 102, 103, 279, 504
 purposes of trips made by Americans, 1190
 restaurant numbers in U.S., 797
 restaurant-industry employment, 778
 retirement ages in Michigan, 522
 service-industry workers in U.S., 336
 states with federal Indian reservations, 121
 tourism expenditures, 682, 783
 tourist destinations, 748
 travel trips made for business, 698–699
 U.S. city and state populations, 153
 U.S. unemployment rate in 2016, 343
 veterinarians focusing on horses only, 350
 Vietnam Veterans' Memorial angles, 420
 violent crime decrease, 402
 visitors to national parks and monuments, 934, 993, 1040, 1238
 visitors to U.S. by region, 507
 visitors to U.S. from Europe, 507
 visitors to U.S. from Mexico, 507–508
 world population by continent, 351

Education

associate degree enrollment, 379
 bachelor degrees awarded, 379
 class enrollment, 72
 college book costs, 376
 college enrollment, 44
 college enrollment increase/decrease, 46, 376
 college library reading promotion, 39
 college majors, 140, 150
 college student living arrangements, 511
 college students living at home, 339, 848
 college students' spending categories, 223
 college students' use of time, 182

college students using Internet, 342
 exercises completed in 30 minutes, 491
 faculty size increase, 639
 favorite subjects of students ages
 13 to 17, 201
 female and male students
 enrolled, 682
 freshmen at high school, 491
 freshmen enrolled in basic college
 math, 402
 grade point average, 519–520,
 525, 541, 549
 graduate/undergraduate students,
 563, 648
 Head Start enrollment decrease, 46
 heights of students, 548–549, 1309
 high school graduates, 992
 math test scores, 526
 maze completion times, 517
 number of children at day care
 center, 375
 number of colleges in U.S., 631
 number of freshman students, 14, 120,
 338, 371–372
 number of sophomore students, 121
 number of students at university, 371
 number of students on bus, 153
 percent of students in each class, 509
 persons over age 25 finishing
 college, 539
 public schools in U.S., 103
 quiz scores, 516, 536
 scholarship applications at Yale, 374
 sleep hours for students, 541
 student class distribution, 514
 student government fund-raiser, 38
 student government presidential
 elections, 38
 students admitted/applied, 563
 students taking SAT exams, 758
 teacher salaries, 79–80
 teachers employed in U.S., 380
 teachers' taxable income, 260
 test scores, 46, 138, 720
 textbook costs, 58, 262
 time spent on homework/studying,
 237, 241
 time spent studying, 272, 745
 total semester bill, 86
 tuition and fees for college, 700, 758
 tuition costs, 104
 tuition increase, 379
 typing speed, 379

Electronics/computers

Apple MacBook thinness, 262
 bipedal robot speed, 405
 cases of printer paper needed, 335
 cell phone behavior while driving, 728
 cell phone measurements, 273, 284
 cell phone tower sites in U.S., 380, 708
 characters per line of print on
 computer, 59

computer chip measurements, 230
 computer desk production, 747
 computer disk storage capacity, 296
 computer values over time, 742
 consumer spending on DVDs and
 Blu-ray formats, 870
 cost of computers and equipment
 for lab, 79, 86
 cost of flash drives, 79
 decrease in cable TV numbers, 379
 desktops for lab cost, 552
 digital camera measurements, 152
 digital camera preferences, 490
 DVD storage capacity, 318
 Facebook usage, 101
 Google searches, 925
 Great Internet Mersenne Prime
 Number Search, 14
 Internet usage, 85–86, 101
 Internet-crime complaints, 705
 iPhone dimensions, 681
 iPod measurements, 272, 285
 megabytes of information held by CDs
 and DVDs, 54, 59
 patents granted to Apple Inc., 130
 pixel calculations, 59
 printer cartridge weights, 319
 printer pages per minute, 54
 printer shipments, 69
 scanner machine values over time, 742
 smartphone ownership, 45, 153, 708
 song download card sharing, 173
 switchboard telephone
 connections, 1040
 text message users in selected age
 groups, 1007
 virtual reality devices worldwide, 707
 volume of Apple watch, 230
 volume of Space Cube, 456
 wireless device usage, 1199

Finance, general

annual inflation rates, 547
 bank costs, 105
 coin values, 275–276
 compound interest, 391–392, 392, 394,
 399, 402, 406, 1039
 currency in exchange, 600
 dividends, 376
 gold prices, 1205
 interest rate, 214, 1039
 investment account total amount,
 389–390, 886
 money conversion, 1076
 national debt of France, 16
 simple interest, 389, 389–390, 393, 394,
 399, 402, 403, 406, 552, 639, 1244
 stock market gains/losses, 608,
 631, 637
 stock prices, 171, 633, 887
 stock shares, 887
 tax return preparation times, 213
 tipping calculations, 388

Finance, personal

change back from purchase, 271
 charge account amounts, 592
 checking account balance, 85, 307, 505
 credit card balance, 298
 estate calculations, 680
 loan payments, 85, 313, 389–390, 392,
 393, 394, 403, 406
 monthly budget, 540
 monthly income spent on rent, 347
 pay before taxes, 283
 paychecks received in one year, 85
 savings account balances, 36, 103, 563,
 886, 1244
 total pay after taxes and insurance, 378

Food/nutrition

amounts of hot dogs and buns
 needed, 1084
 annual food sales in U.S., 503
 apple usage, 233
 area of pizza, 446
 beverage consumption, 870
 boiling point of water, 562
 bottled water consumed, 992
 calories from fat, 150, 377–378, 709
 calories from protein, 709
 calories in food items, 59, 84, 335, 379
 calories used in exercise, 719
 candy mixtures, 891
 candy weight, 215
 canned foods packing calculations, 105
 cases filled with cans of food, 407
 cheese in recipe, 228
 cheese pallet packing calculations, 58
 cheesecake calories, 84
 chocolate bar dimensions, 1212
 chocolate-consuming countries,
 274–275
 cholesterol in food, 336
 cilantro in recipe, 241
 circumference of soup can, 434
 cocoa bean storage, 282
 coffee blends, 706, 889
 combined weight of ground round, 319
 cost of each breakfast item, 897
 cost of each of several items, 314
 fat content, 58, 59, 104, 160, 283
 favorite pizza toppings, 514
 fiber content of selected foods, 503
 flour in recipe, 151, 230
 food order cost comparisons, 85
 Girl Scout cookie sales, 201
 grain products wasted in
 U.S. homes, 351
 hamburger meat calculations, 160, 208
 honey amounts in recipe, 178–179
 hot dogs consumed in U.S., 84
 ice cream eaten per year, 332
 M&Ms color distribution, 512
 nut mixtures, 706, 889
 nutrition labeling, 709
 olive oil calories, 58

Food/nutrition (continued)

ounces of soda in case, 318
 peaches (canned) weight, 238
 pepper hotness, 708
 percent soft drinks sold, 403
 pizza better buy size, 448
 pizza preferences, 401
 pizza sizes, 694
 punch ingredients, 241
 salmon imports/exports, 862
 soft drink consumption by
 teenage males, 76
 sugar calories, 110
 sugar in candy bar, 311
 sugar in recipe, 182, 228
 trail mix blend, 708
 tuna (canned) calories, 84
 turkey price per pound, 296
 types of milk beverage consumed, 516
 use of Internet for information about
 restaurant food, 343
 vitamin A in cherry serving, 343
 volume of ice cream cone, 456
 ways to eat pizza, 514
 yogurt production, 800

Geography/geology

age of Yellowstone National Park, 83
 alloys with copper, 406, 707, 1309
 aluminum prices, 160
 area of Belize, 13
 area of Utah, 448
 bridge lengths, 645–646
 Cahokia Mounds angles, 420
 Chichen Itza Pyramid angles, 420
 Colorado area calculations, 54
 common city names in U.S., 83
 dam heights, 36, 515
 dams by continent, 513
 desert areas, 648, 681
 diameter of water ripple, 428
 distance around Meteor Crater, 438
 distance seen from top of height, 1177
 diving depths, 563, 583, 608
 electricity generated by solar
 power, 1238
 electricity generation, 943
 elevation differences, 592, 593, 849
 elevation highs and lows, 583, 588–589
 geothermal energy in Iceland, 350
 glacier flow rates, 685, 696, 735
 highest point in selected states, 14
 hydroelectric energy in Iceland, 350
 ice sheets, 342
 Khafre's Pyramid angles, 420
 lake elevation above sea level, 557
 land areas by continent, 511
 lava flow times, 694
 Mississippi River Basin drainage, 35
 mountain heights, 15, 25, 36, 46, 73, 304,
 332, 563
 Namibia grassland spots, 449
 national monuments, 138

national park units in U.S., 727
 national parks, 136, 140, 202, 223, 282
 ocean measurements/depths, 201
 ocean surface areas, 925
 public lands by governmental
 department, 513
 river lengths, 77–78, 245, 526
 sizes of oceans, 513
 states adjacent to other states, 142
 surface areas of continents, 183
 uranium production in Canada, 351
 U.S. boundary calculations, 84
 volcano heights, 723
 volume of Mount Fuji, 456
 volume of water flowing over
 Niagara Falls, 925
 wildfires in U.S., 501–502
 Wyoming area calculations, 54

Geometry

angle measures, 410–411, 417–418,
 420–421, 427, 458, 480–481, 485, 488,
 562, 632, 649, 674–675, 678–679,
 682, 683, 889, 980, 1092, 1244, 1309
 area of circle, 443–444, 573, 827, 914,
 1037, 1131, 1162
 area of geometric figures, 76, 171, 231,
 232, 240, 440–441, 441–442, 448,
 479, 483, 485, 488, 935, 942, 949, 958,
 993, 1041
 area of parallelogram, 441, 696, 707, 914,
 967, 1037, 1131
 area of rectangle, 54, 58, 82, 86, 104, 105,
 110, 152, 167, 168, 173, 230, 284, 305,
 407, 448, 449, 491, 638, 914, 949, 950,
 975, 976, 1076
 area of square, 86, 91, 94, 106, 110, 318,
 440, 573, 914, 949, 950, 975, 1020,
 1076
 area of triangle, 302, 305, 313, 317, 440,
 551, 707, 924, 949, 1052
 area percent decrease/increase, 705, 707
 base and height of geometric figures,
 1037, 1039
 base length of triangle, 1039
 circle measurements, 240
 circumference of circle, 280, 283, 285,
 312, 317, 437, 438, 439, 482, 488
 complementary angles, 413, 417, 458,
 485, 488, 553, 589, 592, 593, 648, 680,
 726, 889, 1092, 1100, 1244, 1309
 congruent triangles, 467, 471
 consecutive integers, 658, 675–676, 679,
 681, 726, 727, 1034–1035, 1037, 1047,
 1132, 1244
 diagonal length of rectangle, 1184, 1185
 diameter of circle, 151, 424, 427, 458, 481,
 485, 488, 980
 diameter of sphere, 425, 482
 dimensions of original geometric
 figures, 1039
 dimensions of rectangle, 886, 1038,
 1039, 1046, 1048
 height and base of triangle, 1242
 height of right triangle, 694
 hypotenuse length of right
 triangle, 1172
 inner diameter measurements, 201
 inner diameter of circle, 230
 length of hypotenuse of right triangle,
 461, 464, 489
 length of rectangle, 1184
 outer diameter of circle, 230
 partial lengths and widths, 201
 perimeter and area of rectangle,
 1091, 1308
 perimeter of geometric figures, 20,
 24–25, 57, 76, 95, 102, 172, 181, 200,
 214, 231, 232, 238, 244, 245, 435,
 436–437, 440, 447–448, 458, 479, 482,
 485, 608, 657, 694, 935, 980, 1008,
 1012, 1037
 perimeter of octagon, 436
 perimeter of parallelogram, 200, 846
 perimeter of pentagon, 394, 436
 perimeter of polygon, 436
 perimeter of rectangle, 20, 25, 27, 47, 57,
 82, 110, 161, 178, 181, 200, 231, 237,
 238, 240, 244, 394, 407, 430, 551, 575,
 626, 687, 760, 1000, 1045, 1154
 perimeter of square, 27, 94, 110, 161, 178,
 181, 231, 272, 312, 318, 394, 436, 812,
 967, 1084
 perimeter of trapezoid, 432, 760, 1084
 perimeter of triangle, 47, 181, 200, 238,
 272, 312, 394, 431–432, 436, 491,
 626, 666, 812, 976, 1035–1036, 1045
 pizza slice angles, 427
 polygon sides and angles, 1038
 Pythagorean theorem, 1184, 1185
 radius of ball, 1162
 radius of circle, 151, 424, 427, 458, 481,
 485, 488, 1188, 1199
 radius of curvature of road, 1177
 radius of cylinder, 1181
 radius of sphere, 425, 429, 482, 1185
 ratio calculations, 322, 327, 331, 468,
 471, 980, 1308
 ratio of sides of similar
 triangles, 491
 Rubik's Cube side length, 1141
 side lengths of cube, 1142, 1149
 side lengths of geometric figures, 240,
 298, 658, 1047
 side lengths of quadrilateral, 1047
 side lengths of rectangle, 1171
 side lengths of rectangles, 719,
 993, 1037
 side lengths of right triangle, 1039, 1047,
 1172, 1175, 1178, 1188
 side lengths of similar triangles, 469,
 471–472, 474, 484, 489, 1309
 side lengths of square-based
 pyramid, 1181
 side lengths of squares, 1037, 1039, 1040,
 1141, 1198

side lengths of triangle, 1048, 1184
 side lengths of triangles, 462, 464–465,
 466, 484, 486, 719, 886
 sides and diagonals of polygons, 1243
 supplementary angles, 414, 417–418, 458,
 485, 488, 553, 589, 592, 593, 648, 680,
 726, 889, 1092, 1100, 1244
 surface area of box, 974
 surface area of cube, 827–828, 916
 unknown lengths, 225–226, 484, 486
 unknown numbers, 1108
 volume of ball, 451–452, 1131
 volume of box, 224–225, 230, 696, 1131
 volume of cone, 453, 454, 486
 volume of cube, 455, 456, 458, 914, 916,
 924, 949
 volume of cylinder, 452–453, 455, 483,
 489, 914
 volume of geometric solids, 454–455,
 457, 483
 volume of hemisphere, 454, 457
 volume of rectangular box, 457,
 486, 1162
 volume of rectangular solids, 457
 volume of sphere, 454, 456, 458,
 479, 483
 volume of square-based pyramid, 453,
 455, 458, 1176
 volume of suitcase, 233
 width of rectangle, 454
 width of rectangular box, 489

Home improvement

area of roof, 1140
 area of window, 449
 board length measurements, 185, 197,
 213, 230, 241, 244, 626, 648, 666, 672,
 678, 681, 727, 942, 1091, 1132
 bookcase shelving, 231
 bricks needed for side of building, 447
 carpet costs, 448
 carpet needed for room, 483
 circumference of lawn watering
 device, 434
 circumference of spa, 434
 cleaning solution ingredients, 230
 copper tubing requirements, 231
 deck dimensions, 475
 deck length, 686
 deck post depth to be buried, 151
 deck railing measurements, 274
 doorway height, 284
 driveway sealant needed, 483
 fencing requirements, 25, 431,
 433, 436, 692
 fertilizer needed, 280, 292, 296,
 314, 335, 694
 floor tile cost, 491
 garden length, 80–81
 garden length ratios, 331
 garden measurements, 891, 981
 garden wall/border measurement,
 228, 274

gutter measurements and costs, 25, 437
 house cleaning, 238
 insecticide needed for lawn, 317, 489
 insulation needed for attic, 446
 invisible fence wire needed, 25
 length and cost of baseboard, 489
 metal strip around workbench, 436
 paint costs, 110
 paint needed for walls, 292, 295
 perimeter of a room, 432–433
 perimeter of rectangular lot, 430
 perimeter of room, 980
 perimeter of window, 440
 pipe length, 230
 pitch of roof, 782, 785
 plumbing hours for a job, 678
 plywood stacking, 236
 room area and perimeter, 692
 screw depth, 150
 sheetrock stacking, 231
 shelf paper measurements, 238
 shingles needed for roof, 447
 sidewalk measurements, 196
 sidewalk width, 151
 volume of air in room, 486
 volume of drawers in chest, 484
 wall area and perimeter, 692
 wallpaper border costs, 433
 wallpaper strip around room, 437
 water seal needed for deck, 731
 width of walk around garden, 1041
 yard area and perimeter, 692
 yard size, 447

Medicine/health

allergy shot reaction times, 69
 aspirin usage, 183, 342
 basal metabolic rate, 1282
 blood cholesterol levels, 36
 blood pressure drug testing, 533
 blood type calculations, 139–140,
 304, 344
 blood types in a population, 547
 body surface area of human, 1150
 body-mass index, 1066
 bone components, 344
 calories used in exercise, 719
 cephalic index, 1066
 crutch adjustments, 213
 decrease in tobacco use, 343
 drug/medicine dosage calculations, 160,
 296, 329, 336, 337, 812
 drug/medicine dosage for child,
 1066, 1091
 eye pupil measurement, 428, 449
 eyeglass cost, 272
 fluid intake measurements, 26
 heart transplants in U.S., 786
 height measurements for adults,
 268–269, 284
 height of woman given femur length, 812
 home health aide earnings, 83
 human eye blinks, 683

lung transplants in U.S., 840
 medicine dosage for dogs, 405, 1309
 muscles used to smile and frown, 84
 nurse shortages, 371
 organ transplant patients in U.S., 13
 preventable disease cases, 43
 pulse rates, 525
 registered nurse statistics, 380, 754
 rehabilitation using treadmill, 160
 sodium recommendation per week, 86
 waist measurement, 151
 wrist measurement, 151

Miscellaneous

adult and child attendance at
 fundraiser, 889
 amount of wood for storage bin
 braces, 1155
 antenna height, 465
 apartments in building calculations, 58
 area codes, 675–676, 679, 682,
 732, 1312
 area covered by house on lot, 80
 area of canvas, 957
 area of concrete block, 446
 area of double roll of wallpaper, 446
 area of flag, 446
 area of gaming areas of casino, 1072
 area of mat underneath tablecloth, 446
 area of page in book, 446
 area of Ping-Pong table, 967
 area of room, 1162
 area of rug, 957
 area of tabletop, 979
 area of wall, 446
 area of watch face, 446
 art dealer inventory, 121
 banner width, 474
 beam lengths, 678, 942
 books in each category in
 library, 512
 books in stack, 231
 boxes of crayons used, 296
 building heights, 469, 473, 484
 calendar dates, 1118
 carpet cleaning hours and costs, 678
 charity collections, 402
 choosing a number from a bag, 550
 choosing a number then a
 vowel, 531
 choosing card from deck, 534
 choosing colored marbles from a bag,
 121, 530, 533, 543, 544, 553
 choosing letter then a number, 531
 circumference of a pearl, 438
 circumference of round barn, 437
 clothing design material requirements,
 157, 229
 coin production by U.S. Mint, 123
 coin production times, 233
 coin toss, 528–530, 550, 553
 coin toss followed by choosing
 number, 538

Miscellaneous (continued)

- coin tossing followed by spinning
 - a spinner, 532, 542
- coin types, 886, 887, 898
- coin values, 626
- coins metal composition, 229
- combination locks, 679
- connecting pipe length, 1175
- consumer spending categories, 244
- correctional officers employed in U.S., 380
- counties in each state, 681
- curtain wall area of Burj Khalifa Tower, 1075
- days in March, 120
- die rolling, 532, 534, 543, 1131
- die rolling followed by coin tossing, 528–529
- dimensions of print area on page, 474
- distance apart of holes drilled in board, 1118
- drinking glass packing calculations, 107
- flag dimensions, 678, 1047
- floor spaces of Pentagon and Empire State Building, 680
- fundraiser collections, 546
- furniture costs, 262
- gas/oil ratio for machinery, 336
- gift paper measurements, 238
- glass needed for picture frame, 446
- golden rectangle, 683
- guywire lengths, 1039, 1175
- Heifer International locations, 123
- height of deck of Space Needle, 473
- height of fountain, 473
- ladder leaning against wall, 1039
- land measurements, 447, 666, 1154
- legal fireworks in states, 121
- length of brace for frame, 1176
- length of diagonal of section of land, 465
- length of diagonal through city block, 465
- length of diagonal through park, 462
- length of netting around trampoline, 437
- length of shadow cast by antenna, 474
- magazine sales in U.S., 796
- magazines in print in U.S., 840
- magic squares, 626
- mail volume, 43, 46, 223
- mail weight, 241
- material needed for beanbags, 229
- material needed for drapery panels, 446
- material needed to cover ottoman, 916
- mean heights of tallest buildings, 524
- mean salaries, 518–519
- metal strip lengths, 157
- Nobel Prize winners per country, 12, 74
- number of pages word processor can spell check, 334
- office and storage spaces of Pentagon, 1075
- oil prices, 312
- page numbers in book, 679, 1038
- pages remaining to read in book, 35
- paper money life expectancy, 229
- park dimensions, 475
- Pentagon's outer wall, 138
- percent owning microwave ovens, 402
- perimeter of photograph, 489
- perimeter of picture frame, 1154
- perimeter of sign, 482
- perimeter of square tabletop, 431
- perimeter of town square, 482
- piano practice times, 178, 213
- picture frame area and perimeter, 692
- plastic pipe lengths, 213
- pool dimensions, 1041
- postage for large envelopes, 810
- postal revenue from each item, 86
- postal rural delivery routes, 254
- postal service delivery rates, 272
- price comparisons, 110, 368
- probability of event, 529–530, 533, 534, 543
- proofreading pages, 102
- public libraries in selected states, 732
- public television licensees, 123
- PVC pipe needed for project, 167
- radio station formats, 306
- range of salaries, 521
- retirement party invitees, 719
- ribbon lengths, 241
- room cleaning times, 213
- room numbers, 658, 679, 1038
- rope length measurements, 72, 677
- scarf lengths, 238
- seats in lecture hall, 58
- self-tanning lotion mixture, 708
- sewer pipe slope, 783
- shipping boxes needed, 295
- shipping crate volume, 695
- shipping orders, 78–79
- soil needed to fill hole, 489
- song download decrease, 380
- song downloads for each person, 69
- spinner followed by coin toss, 532
- spinner outcomes, 531–533, 542, 550
- stamp types, 898
- Statue of Liberty measurements, 213, 336
- steel piece lengths, 677
- string lengths, 648, 680, 729
- survey results, 535
- swimming pool dimensions, 727
- table dimensions, 1212
- tall buildings by region of world, 540
- tanning lotion amounts needed, 335
- tea bags produced in one day, 60
- text messages sent monthly, 273
- total area of water trough, 1155
- total cost of an order for DVDs and CDs, 55
- total land area, 105
- tower height, 489
- types of books available at library, 512
- unknown numbers, 326–327, 400, 405, 671, 677, 680, 681, 704, 718, 723, 727, 735, 880–881, 887, 897, 898, 901, 981, 1033, 1038, 1041, 1099, 1126, 1127, 1130, 1131, 1244, 1308, 1312
- UPS delivery fleet, 15
- UPS tracking requests per day, 14
- U.S. flag measurements, 232
- volume of birdbath, 455
- volume of Boeing Company building, 1072
- volume of canister for shop vacuum, 484
- volume of child's toy, 456
- volume of microwave, 1162
- volume of paperweight, 455
- volume of snow globe, 456
- volume of swimming pool, 916, 967
- volume of two boxes, 486
- volume of water storage tank, 455
- Washington Monument height, 727
- waste disposal budget, 347
- waste disposed daily, 526
- waste dumping changes, 402
- water bills, 260
- wedding expenditures, 311, 715, 822
- wedding reception hall, 719
- wheelchair ramp, 783
- window washing calculations, 61
- wire lengths, 672, 680
- wireless-only households, 304
- words per book estimates, 55
- working parents' time spent caring for others, 223
- zinc amount in U.S. penny, 350

Politics

- Democrats and Republicans in U.S. House, 672–673, 735, 1244
- electoral votes in selected states, 672
- governors in each party in U.S., 681
- presidents born in Ohio, 120
- presidents who were freemasons, 37
- votes in presidential election, 973

Real estate

- acreage for single-family homes, 226–227
- commission on house sales, 350, 383, 387, 491
- home down payments, 378
- home values, 401, 403
- house sale profits, 82
- housing starts in U.S., 706, 1257
- land purchases, 240
- lots per acre, 229
- new home construction by region, 538
- value of a building, 798

Recreation/entertainment

- Appalachian Trail mileage, 370
- best-selling albums, 503

card game scores, 592, 604
 digital/analog movie screens in U.S.,
 376, 708, 861
 dimensions of triangular sail, 1033–1034
 fair attendance, 881
 favorite types of music, 547
 Ferris wheel measurements, 284
 Frisbee prices, 791–792
 Fun Noodle prices, 798
 hang glider flight speed, 692
 height of climbing tower, 378
 height of kite given string length, 1176
 height of right triangular sail, 694
 indoor cinema sites, 797
 Lego bricks sales, 83
 leisure travel in U.S., 343
 lottery winnings, 72, 78, 82
 Monopoly money requirements, 83
 movie attendance, 150
 movie box office dollars, 744
 movie ratings, 139, 142, 400
 movie screen increase, 701, 778–779
 movie ticket costs, 105, 273
 movie ticket sales, 150, 847
 museum attendance, 16, 84
 music industry revenues, 380, 847
 Netflix revenue, 282
 opening day film income, 15
 pool toy prices and sales, 791
 rate of commercials, 324
 ratio of digital to total films, 332
 ratio of independent to total films, 332
 Razor scooters, 83
 roller coaster rides, 263, 282
 roller coasters per amusement
 park, 147
 rowing speed, 888
 Rubik's Cube side length, 1141, 1150
 sail dimensions, 1047
 side lengths of triangular sail, 484
 ski run ratings, 377
 streaming music revenue, 847
 streaming music subscription, 264
 television households, 254
 theater attendance, 374
 theater seating, 897
 theme park attendance, 84
 ticket prices and sales, 55, 59, 319, 380,
 728, 747, 881–882
 top grossing American movies, 264
 total cost for group of climbers, 378
 U.S. theater screens by type, 184
 video games, 645
 vinyl record album sales, 934
 virtual reality devices worldwide, 380
 volume of Hoberman Sphere, 695

Sports

area of skating rink, 449
 artificial turf needed to cover football
 field, 171
 average baseball player's salary, 45, 107
 average football player's salary, 45

baseball caps sold, 138
 baseball field foul lines, 436
 baseball field perimeter, 436
 baseball game attendance, 901
 baseball home run lengths, 436

 sunset times, 809
 temperature and cricket chirps, 693
 temperature differences/changes, 380,
 592, 594, 608, 637
 temperature highs and lows, 36, 85,
 506, 516, 557
 tornado occurrences, 152
 tornado wind speeds, 537
 tornadoes occurring in U.S.,
 732, 739
 tropical storms that became
 hurricanes, 120
 wind speeds, 272, 298

Time/distance

actual distance to swim across river
 because of current, 1149
 average speed on level part of
 trip, 1110
 conversions of distance, 120, 138, 167,
 284, 296, 312, 313
 conversions of time, 82, 120
 conversions of track event
 speed, 1072
 cycling speeds, 1108
 distance across pond/lake, 1173
 distance apart of Romeo and
 Juliet, 1184
 distance apart of two vehicles, 1178
 distance between cities, 25, 36, 46, 102,
 287, 312, 317, 693
 distance between two points, 1179

Time/distance (continued)

distance calculations, 179, 334
 distance estimation on maps
 and blueprints, 42, 46, 328, 335
 distance object falls in selected seconds,
 828, 831
 distance seen from top of height, 1177
 distance traveled on trip, 46, 103
 diving time, 1196, 1198, 1243
 driving time, 685, 693, 695
 hang glider flight speed, 692
 height of dropped object over time,
 929–930, 974, 979, 1021
 height of object thrown/fired upward
 over time, 1000, 1031, 1038, 1047
 height of rocket, 934
 hiking speed on historic trail, 890
 hiking/walking distance, 150, 168
 jogging speed, 1108
 jogging/running distance, 179, 182, 185
 labor estimates, 1127
 land speed record of solar-powered
 car, 1075
 length of skid on dry road, 1176
 maximum height of Roman
 candle, 1225
 race run/walk times, 728
 route length by high-speed train, 693
 safe speed on cloverleaf exit, 1177
 speed needed to complete test track, 832
 speed of boat in still water, 1108, 1109,
 1126, 1130
 speed of car given skidding distance, 1176
 speed of current, 897
 speed of dropped object, 797
 speed of each train traveling in opposite
 direction, 1110
 speed of plane in still air, 888,
 1108, 1109
 speed of vehicle after braking, 474
 speeds of boats traveling at right
 angles, 1040
 speeds of persons walking toward each
 other, 883–884, 890, 901, 1109, 1312
 speeds of trains traveling toward each
 other, 888
 speeds of two vehicles, 1105–1106, 1109,
 1110, 1126
 speeds of vehicle on flatland and on
 mountain, 1108
 speeds of vehicles traveling toward
 each other, 883, 890, 1191
 stopping time after braking, 831
 time after launch for rocket to be at
 certain height, 1213
 time calculations, 695
 time car speeds before being stopped
 for ticket, 1109
 time for cliff diver to water below, 1024,
 1032, 1054
 time for dropped/falling object to hit
 ground, 1021, 1038, 1039, 1176,
 1196, 1198, 1199, 1213

time for one plane to overtake
 another, 1109
 time for one vehicle to overtake
 another, 1109
 time for pump to fill tank, 1110
 time for Roman candle to reach
 ground, 1225
 time for Roman candle to reach maxi-
 mum height, 1225
 time for second/third person to do same
 job, 1109, 1110
 time for third/each pipe to fill
 pool, 1110
 time for two conveyor belts to move
 objects, 1107
 time for two pipes to fill pond, 1106,
 1126, 1130
 time remaining before plane lands, 1189
 time spent on bicycle during trip, 888
 time spent walking and jogging, 897
 time to reach top of Space Needle by
 elevator, 335
 time to row boat upstream, 1108
 time to travel in each of two
 vehicles, 1109
 train speeds, 680, 1110
 travel time given speed, 831
 two speeds during same trip, 1109
 velocity of falling object, 1174
 walking speeds of two persons, 1109,
 1191, 1309
 wind speed, 597, 888, 1109

Transportation

airline passenger average cost
 per mile, 283
 bridge caisson measurements, 284
 bridge lengths, 76, 83, 254
 bridges per highway miles, 72
 bulge in train tracks, 1178
 cost of road signs, 475
 English Channel Tunnel length, 254
 gasoline cost/prices, 259, 272, 274
 highway bridges in U.S., 1199
 highway lengths, 648
 highway mileage in selected states, 28
 highway speed limits, 183
 lane divider placement, 72
 length measurements, 73
 light pole placement, 72
 mileage categories, 152
 miles driven by adults per week, 296, 504
 miles driven on budget, 678
 miles driven on trip, 35, 46
 miles driven to work, 323
 odometer readings, 35
 overweight luggage sizes, 212
 parking lot dimensions, 82, 692, 1141
 pontoon bridges, 214
 radius of curvature of road, 1177
 railroad track gauge, 229
 railroad track inspection, 182
 road congestion causes, 183

road grade, 778, 783
 road sign dimensions, 687–688, 890
 safe speed on cloverleaf exit, 1177
 sign dimensions, 674–675, 693
 soundproof wall lengths, 552
 stop sign perimeter, 436
 taxi travel distance at certain
 costs, 678, 680
 train fare, 887
 train track grade, 783
 vessels passing through Panama
 Canal, 282
 weight of truck load, 196

World records

coldest temperatures, 592
 driest city, 273
 fastest computer, 16
 fastest trains, 680
 highest and lowest points in
 U.S., 849
 highest dive from diving board, 1243
 highest elevation in Africa, 593
 highest freestanding tower, 14
 highest temperature, 695, 728
 highest town, 14
 largest bridge in New York, 83
 largest building by volume, 1072
 largest buildings, 20
 largest casino, 1072
 largest Coca-Cola sign, 691
 largest commercial building, 59
 largest hotel lobby, 59
 largest indoor illuminated
 advertising, 446
 largest inflatable beach ball, 456
 largest meteorite, 648, 681
 largest Monopoly board, 27
 largest pearl, 438
 largest permanent maze, 37
 largest pizza, 446
 largest pontoon bridge, 214
 largest round barn, 437
 largest soap bubble, 456
 largest suspension bridge, 284
 largest U.S. flag, 446
 longest bridge, 645–646
 longest highway, 648
 lowest temperature, 695
 mean heights of tallest
 buildings, 524
 Nobel Prize winners per country, 12
 slowest mammal, 200
 smallest cathedral, 458
 smallest computer, 456
 smallest jigsaw puzzle, 27
 snowiest city, 273
 steepest street, 783
 tallest building, 1177
 tallest buildings, 13, 77
 tallest roller coaster, 263
 tallest tree, 473
 tallest waterfall, 26

The Whole Numbers

A Selection of Resources for Success in This Mathematics Course

Elayn Martin-Gay

Developmental Mathematics

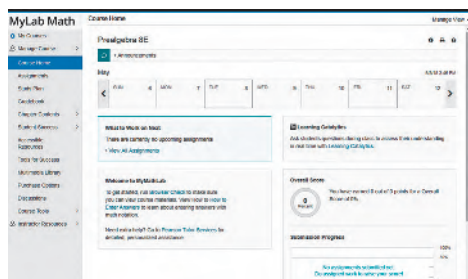

Fourth Edition

Textbook

Instructor

MyLab Math and MathXL

Video Organizer

Interactive Lecture Series

For more information about the resources illustrated above, read Section 1.1.

1

Whole numbers are the basic building blocks of mathematics. The whole numbers answer the question “How many?”

This chapter covers basic operations on whole numbers. Knowledge of these operations provides a good foundation on which to build further mathematical skills.

Sections

- 1.1 Study Skill Tips for Success in Mathematics
- 1.2 Place Value, Names for Numbers, and Reading Tables
- 1.3 Adding Whole Numbers and Perimeter
- 1.4 Subtracting Whole Numbers
- 1.5 Rounding and Estimating
- 1.6 Multiplying Whole Numbers and Area
- 1.7 Dividing Whole Numbers
- Integrated Review**—Operations on Whole Numbers
- 1.8 An Introduction to Problem Solving
- 1.9 Exponents, Square Roots, and Order of Operations

Check Your Progress

- Vocabulary Check
- Chapter Highlights
- Chapter Review
- Getting Ready for the Test
- Chapter Test

1.1 Study Skill Tips for Success in Mathematics

Objectives

- A** Get Ready for This Course.
- B** Understand Some General Tips for Success.
- C** Know How to Use This Text.
- D** Know How to Use Text Resources.
- E** Get Help as Soon as You Need It.
- F** Learn How to Prepare for and Take an Exam.
- G** Develop Good Time Management.

Before reading this section, ask yourself a few questions.

1. Were you satisfied—really satisfied—with your performance in your last math course? In other words, do you feel that your outcome represented your best effort?
2. When you took your last math course, were your notes and materials from that course organized and easy to find, or were they disorganized and hard to find—if you saved them at all?

If the answer is “no” to these questions, then it is time to make a change. To begin, continue reading this section.

Objective A Let's Get Ready for This Course

1. *Start With a Positive Attitude.* 😊

Now that you have decided to take this course, remember that a *positive attitude* will make all the difference in the world. Your belief that you can succeed is just as important as your commitment to this course. Make sure you are ready for this course by having the time and positive attitude that it takes to succeed.

2. *Understand How Your Course Material Is Presented—Lecture by Instructor, Online With Computer, or Both?*

Make sure that you are familiar with the way that this course is being taught. Is it a traditional course, in which you have a printed textbook and meet with an instructor? Is it taught totally online, and your textbook is electronic and you e-mail your instructor? Or is your course structured somewhere in between these two methods? (Not all of the tips that follow will apply to all forms of instruction.)

3. *Schedule Your Class So That It Does Not Interfere With Other Commitments.*

Make sure that you have scheduled your math course for a time that will give you the best chance for success. For example, if you are also working, you may want to check with your employer to make sure that your work hours will not conflict with your course schedule.

Objective B Here are a Few General Tips for Success

Below are some general tips that will increase your chance for success in a mathematics class. Many of these tips will also help you in other courses you may be taking.

1. *Most Important! Organize Your Class Materials. Unless Told Otherwise, Use a 3-Ring Binder Solely for Your Mathematics Class.*

In the next couple pages, many ideas will be presented to help you organize your class materials—notes, any handouts, completed homework, previous tests, etc. In general, you **MUST** have these materials organized. All of them will be valuable references throughout your course and when studying for upcoming tests and the final exam. One way to make sure you can locate these materials when you need them is to use a three-ring binder. This binder should be used solely for your mathematics class and should be brought to each and every class or lab. This way, any material can be immediately inserted in a section of this binder and will be there when you need it.

2. *Choose to attend all class periods.*

If possible, sit near the front of the classroom. This way, you will see and hear the presentation better. It may also be easier for you to participate in classroom activities.

Helpful Hint

MyLab Math and MathXL
When assignments are turned in online, keep a hard copy of your complete written work. You will need to refer to your written work to be able to ask questions and to study for tests later.

3. Complete Your Homework. This Means: Attempt All of It, Check All of It, Correct Any Mistakes, and Ask for Help if Needed.

You've probably heard the phrase "practice makes perfect" in relation to music and sports. It also applies to mathematics. You will find that the more time you spend solving mathematics exercises, the easier the process becomes. Be sure to schedule enough time to complete your assignments before the due date assigned by your instructor.

Review the steps you took while working a problem. Learn to check your answers in the original exercises. You may also compare your answers with the "Answers to Selected Exercises" section in the back of the book. If you have made a mistake, try to figure out what went wrong. Then correct your mistake. If you can't find what went wrong, **don't** erase your work or throw it away. Show your work to your instructor, a tutor in a math lab, or a classmate. It is easier for someone to find where you had trouble if he or she looks at your original work.

It's all right to ask for help. In fact, it's a good idea to ask for help whenever there is something that you don't understand. Make sure you know when your instructor has office hours and how to find his or her office. Find out whether math tutoring services are available on your campus. Check on the hours, location, and requirements of the tutoring service.

4. Learn from your mistakes and be patient with yourself.

Everyone, even your instructor, makes mistakes. (That definitely includes me—Elayn Martin-Gay.) Use your errors to learn and to become a better math student. The key is finding and understanding your errors.

Was your mistake a careless one, or did you make it because you can't read your own math writing? If so, try to work more slowly or write more neatly and make a conscious effort to carefully check your work.

Did you make a mistake because you don't understand a concept? Take the time to review the concept or ask questions to better understand it.

Did you skip too many steps? Skipping steps or trying to do too many steps mentally may lead to preventable mistakes.

5. Turn in assignments on time.

This way, you can be sure that you will not lose points for being late. Show every step of a problem and be neat and organized. Also be sure that you understand which problems are assigned for homework. If allowed, you can always double-check the assignment with another student in your class.

Objective C Knowing and Using Your Text or e-Text

Flip through the pages of this text or view the e-text pages on a computer screen. Start noticing examples, exercise sets, end-of-chapter material, and so on. Learn the way this text is organized by finding an example in your text of each type of resource listed below. Finding and using these resources throughout your course will increase your chance of success.

- **Practice Exercises.** Each example in every section has a parallel Practice exercise. Work each Practice exercise after you've finished the corresponding example. Answers are at the bottom of the page. This "learn-by-doing" approach will help you grasp ideas before you move on to other concepts.
- **Objectives.** Every section of this text is divided into objectives, such as **A** or **B**. They are listed at the beginning of the section and noted in that section. The main section of exercises in each exercise set is also referenced by an objective, such as **A** or **B**, and also an example(s). There is also often a section of exercises entitled "Mixed Practice," which is referenced by two or more objectives or sections. These are mixed exercises written to prepare you for your next exam. Use all of this referencing if you have trouble completing an assignment from the exercise set.

Helpful Hint

MyLab Math and MathXL

If you are doing your homework online, you can work and re-work those exercises that you struggle with until you master them. Try working through all the assigned exercises twice before the due date.

Helpful Hint

MyLab Math and MathXL

If you are completing your homework online, it's important to work each exercise on paper before submitting the answer. That way, you can check your work and follow your steps to find and correct any mistakes.

Helpful Hint

MyLab Math and MathXL

Be aware of assignments and due dates set by your instructor. Don't wait until the last minute to submit work online.

- **Icons (Symbols).** Make sure that you understand the meaning of the icons that are beside many exercises.  tells you that the corresponding exercise may be viewed on the video Lecture Series that corresponds to that section.  tells you that this exercise is a writing exercise in which you should answer in complete sentences.  tells you that the exercise involves geometry.
- **Integrated Reviews.** Found in the middle of each chapter, these reviews offer you a chance to practice—in one place—the many concepts that you have learned separately over several sections.
- **End-of-Chapter Opportunities.** There are many opportunities at the end of each chapter to help you understand the concepts of the chapter.

Vocabulary Checks contain key vocabulary terms introduced in the chapter.

Chapter Highlights contain chapter summaries and examples.

Chapter Reviews contain review problems. The first part is organized section by section and the second part contains a set of mixed exercises.

Getting Ready for the Tests are multiple choice or matching exercises designed to check your knowledge of chapter concepts, before you attempt the chapter test. Video solutions are available for all these exercises.

Chapter Tests are sample tests to help you prepare for an exam. The Chapter Test Prep Videos found in MyLab Math provide the video solution to each question on each Chapter Test.

Cumulative Reviews start at Chapter 2 and are reviews consisting of material from the beginning of the book to the end of that particular chapter.

- **Student Resources in Your Textbook.** You will find a **Student Resources** section at the back of this textbook. It contains the following to help you study and prepare for tests:

Study Skill Builders contain study skills advice. To increase your chance for success in the course, read these study tips, and answer the questions.

Bigger Picture—Study Guide Outline provides you with a study guide outline of the course, with examples.

Practice Final provides you with a Practice Final Exam to help you prepare for a final.

- **Resources to Check Your Work.** The **Answers to Selected Exercises** section provides answers to all odd-numbered section exercises and to all integrated review, chapter review, getting ready for the test, chapter test, and cumulative review exercises. Use the **Solutions to Selected Exercises** to see the worked-out solution to every other odd-numbered exercise in the section exercises and chapter tests.

Helpful Hint

MyLab Math

In MyLab Math, you have access to the following video resources:

- Lecture Videos for each section
- Getting Ready for the Test Videos
- Chapter Test Prep Videos
- Final Exam Videos

Use these videos provided by the author to prepare for class, review, and study for tests.

Objective D Knowing and Using Video and Notebook Organizer Resources

Video Resources

Below is a list of video resources that are all made by me—the author of your text, Elayn Martin-Gay. By making these videos, I can be sure that the methods presented are consistent with those in the text. All video resources may be found in MyLab Math.

- **Interactive Video Lecture Series.** Exercises marked with a  are fully worked out by the author. The lecture series provides approximately 20 minutes of instruction per section and is organized by Objective.
- **Getting Ready for the Test Videos.** These videos provide solutions to all of the Getting Ready for the Test exercises.

- **Chapter Test Prep Videos.** These videos provide solutions to all of the Chapter Test exercises worked out by the author. They can be found in MyLab Math. This supplement is very helpful before a test or exam.
- **Tips for Success in Mathematics.** These video segments are about 3 minutes long and are daily reminders to help you continue practicing and maintaining good organizational and study habits.
- **Final Exam Videos.** These video segments provide solutions to each question.

Video Organizer

This organizer is in three-ring notebook ready form. It is to be inserted in a three-ring binder and completed. This organizer is numbered according to the sections in your text to which it refers.

It is closely tied to the Interactive (Video) Lecture Series. Each section should be completed while watching the lecture video on the same section. Once completed, you will have a set of notes to accompany the (Video) Lecture Series section by section.

Objective E Getting Help

If you have trouble completing assignments or understanding the mathematics, get help as soon as you need it! This tip is presented as an objective on its own because it is so important. In mathematics, usually the material presented in one section builds on your understanding of the previous section. This means that if you don't understand the concepts covered during a class period, there is a good chance that you will not understand the concepts covered during the next class period. If this happens to you, get help as soon as you can.

Where can you get help? Try your instructor, a tutoring center, or a math lab, or you may want to form a study group with fellow classmates. If you do decide to see your instructor or go to a tutoring center, make sure that you have a neat notebook and are ready with your questions.

Objective F Preparing for and Taking an Exam

Make sure that you allow yourself plenty of time to prepare for a test. If you think that you are a little “math anxious,” it may be that you are not preparing for a test in a way that will ensure success. The way that you prepare for a test in mathematics is important. To prepare for a test:

1. Review your previous homework assignments.
2. Review any notes from class and section-level quizzes you have taken. (If this is a final exam, also review chapter tests you have taken.)
3. Review concepts and definitions by reading the Chapter Highlights at the end of each chapter.
4. Practice working out exercises by completing the Chapter Review found at the end of each chapter. (If this is a final exam, go through a Cumulative Review. There is one found at the end of each chapter except Chapter 1. Choose the review found at the end of the latest chapter that you have covered in your course.) *Don't stop here!*
5. Take the Chapter Getting Ready for the Test. All answers to these exercises are available to you as well as video solutions.
6. Take a sample test with no notes, etc, available for help. It is important that you place yourself in conditions similar to test conditions to find out how you

Helpful Hint

MyLab Math and MathXL

- Use the **Help Me Solve This** button to get step-by-step help for the exercise you are working. You will need to work an additional exercise of the same type before you can get credit for having worked it correctly.
- Use the **Video** button to view a video clip of the author working a similar exercise.

Helpful Hint

MyLab Math and MathXL

Review your written work for previous assignments. Then, go back and re-work previous assignments. Open a previous assignment, and click **Similar Exercise** to generate new exercises. Re-work the exercises until you fully understand them and can work them without help features.

will perform. There is a Chapter Test available at the end of each chapter, or you can work selected problems from the Chapter Review. Your instructor may also provide you with a review sheet. Then check your sample test. If your sample test is the Chapter Test in the text, don't forget that the video solutions are in MyLab Math.

7. On the day of the test, allow yourself plenty of time to arrive at where you will be taking your exam.

When taking your test:

1. Read the directions on the test carefully.
2. Read each problem carefully as you take the test. Make sure that you answer the question asked.
3. Watch your time and pace yourself so that you can attempt each problem on your test.
4. If you have time, check your work and answers.
5. Do not turn your test in early. If you have extra time, spend it double-checking your work.

Objective G Managing Your Time

As a college student, you know the demands that classes, homework, work, and family place on your time. Some days you probably wonder how you'll ever get everything done. One key to managing your time is developing a schedule. Here are some hints for making a schedule:

1. Make a list of all of your weekly commitments for the term. Include classes, work, regular meetings, extracurricular activities, etc. You may also find it helpful to list such things as laundry, regular workouts, grocery shopping, etc.
2. Next, estimate the time needed for each item on the list. Also make a note of how often you will need to do each item. Don't forget to include time estimates for the reading, studying, and homework you do outside of your classes. You may want to ask your instructor for help estimating the time needed.
3. In the exercise set that follows, you are asked to block out a typical week on the schedule grid given. Start with items with fixed time slots like classes and work.
4. Next, include the items on your list with flexible time slots. Think carefully about how best to schedule items such as study time.
5. Don't fill up every time slot on the schedule. Remember that you need to allow time for eating, sleeping, and relaxing! You should also allow a little extra time in case some items take longer than planned.
6. If you find that your weekly schedule is too full for you to handle, you may need to make some changes in your workload, classload, or other areas of your life. You may want to talk to your advisor, manager or supervisor at work, or someone in your college's academic counseling center for help with such decisions.

1.1 Exercise Set MyLab Math

1. What is your instructor's name?
2. What are your instructor's office location and office hours?
3. What is the best way to contact your instructor?
4. Do you have the name and contact information of at least one other student in class?
5. Will your instructor allow you to use a calculator in this class?
6. Why is it important that you write step-by-step solutions to homework exercises and keep a hard copy of all work submitted?
7. Is there a tutoring service available on campus? If so, what are its hours? What services are available?
8. Have you attempted this course before? If so, write down ways that you might improve your chances of success during this attempt.
9. List some steps that you can take if you begin having trouble understanding the material or completing an assignment. If you are completing your homework in MyLab Math and MathXL, list the resources you can use for help.
10. How many hours of studying does your instructor advise for each hour of instruction?
11. What does the  icon in this text mean?
12. What does the  icon in this text mean?
13. What does the  icon in this text mean?
14. Search the minor columns in your text. What are Practice exercises?
15. When might be the best time to work a Practice exercise?
16. Where are the answers to Practice exercises?
17. What answers are contained in this text and where are they?
18. What are Tips for Success in Mathematics and where are they located?
19. What and where are Integrated Reviews?
20. How many times is it suggested that you work through the homework exercises in MyLab Math or MathXL before the submission deadline?
21. How far in advance of the assigned due date is it suggested that homework be submitted online? Why?
22. Chapter Highlights are found at the end of each chapter. Find the Chapter 1 Highlights and explain how you might use it and how it might be helpful.
23. Chapter Reviews are found at the end of each chapter. Find the Chapter 1 Review and explain how you might use it and how it might be helpful.
24. Chapter Tests are found at the end of each chapter. Find the Chapter 1 Test and explain how you might use it and how it might be helpful when preparing for an exam on Chapter 1. Include how the Chapter Test Prep Videos may help. If you are working in MyLab Math and MathXL, how can you use previous homework assignments to study?
25. What is the Video Organizer? Explain the contents and how it might be used.
26. Read or reread objective  and fill out the schedule grid on the next page.

1.2 Place Value, Names for Numbers, and Reading Tables

Objectives

- A** Find the Place Value of a Digit in a Whole Number. 
- B** Write a Whole Number in Words and in Standard Form. 
- C** Write a Whole Number in Expanded Form. 
- D** Read Tables. 

The **digits** 0, 1, 2, 3, 4, 5, 6, 7, 8, and 9 can be used to write numbers. For example, the **whole numbers** are

0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, . . .

and the **natural numbers** are 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, . . .

The three dots (. . .) after each 11 means that these lists continue indefinitely. That is, there is no largest whole number. The smallest whole number is 0. Also, there is no largest natural number. The smallest natural number is 1.

Objective **A** Finding the Place Value of a Digit in a Whole Number

The position of each digit in a number determines its **place value**. For example, the distance (in miles) between the planet Mercury and the planet Earth can be represented by the whole number 48,337,000. Next is a place-value chart for this whole number.

The two 3s in 48,337,000 represent different amounts because of their different placements. The place value of the 3 on the left is hundred-thousands. The place value of the 3 on the right is ten-thousands.

Examples

Find the place value of the digit 3 in each whole number.

1. 396,418
↑
hundred-thousands

2. 93,192
↑
thousands

3. 534,275,866
↑
ten-millions

Work Practice 1–3

Practice 1–3

Find the place value of the digit 8 in each whole number.

- 38,760,005
- 67,890
- 481,922

Objective B Writing a Whole Number in Words and in Standard Form

A whole number such as 1,083,664,500 is written in **standard form**. Notice that commas separate the digits into groups of three, starting from the right. Each group of three digits is called a **period**. The names of the first four periods are shown in red.

Writing a Whole Number in Words

To write a whole number in words, write the number in each period followed by the name of the period. (The ones period is usually not written.) This same procedure can be used to read a whole number.

For example, we write 1,083,664,500 as

Helpful Hint

Notice the **commas** after the name of each period.

Answers

- millions
- hundreds
- ten-thousands
